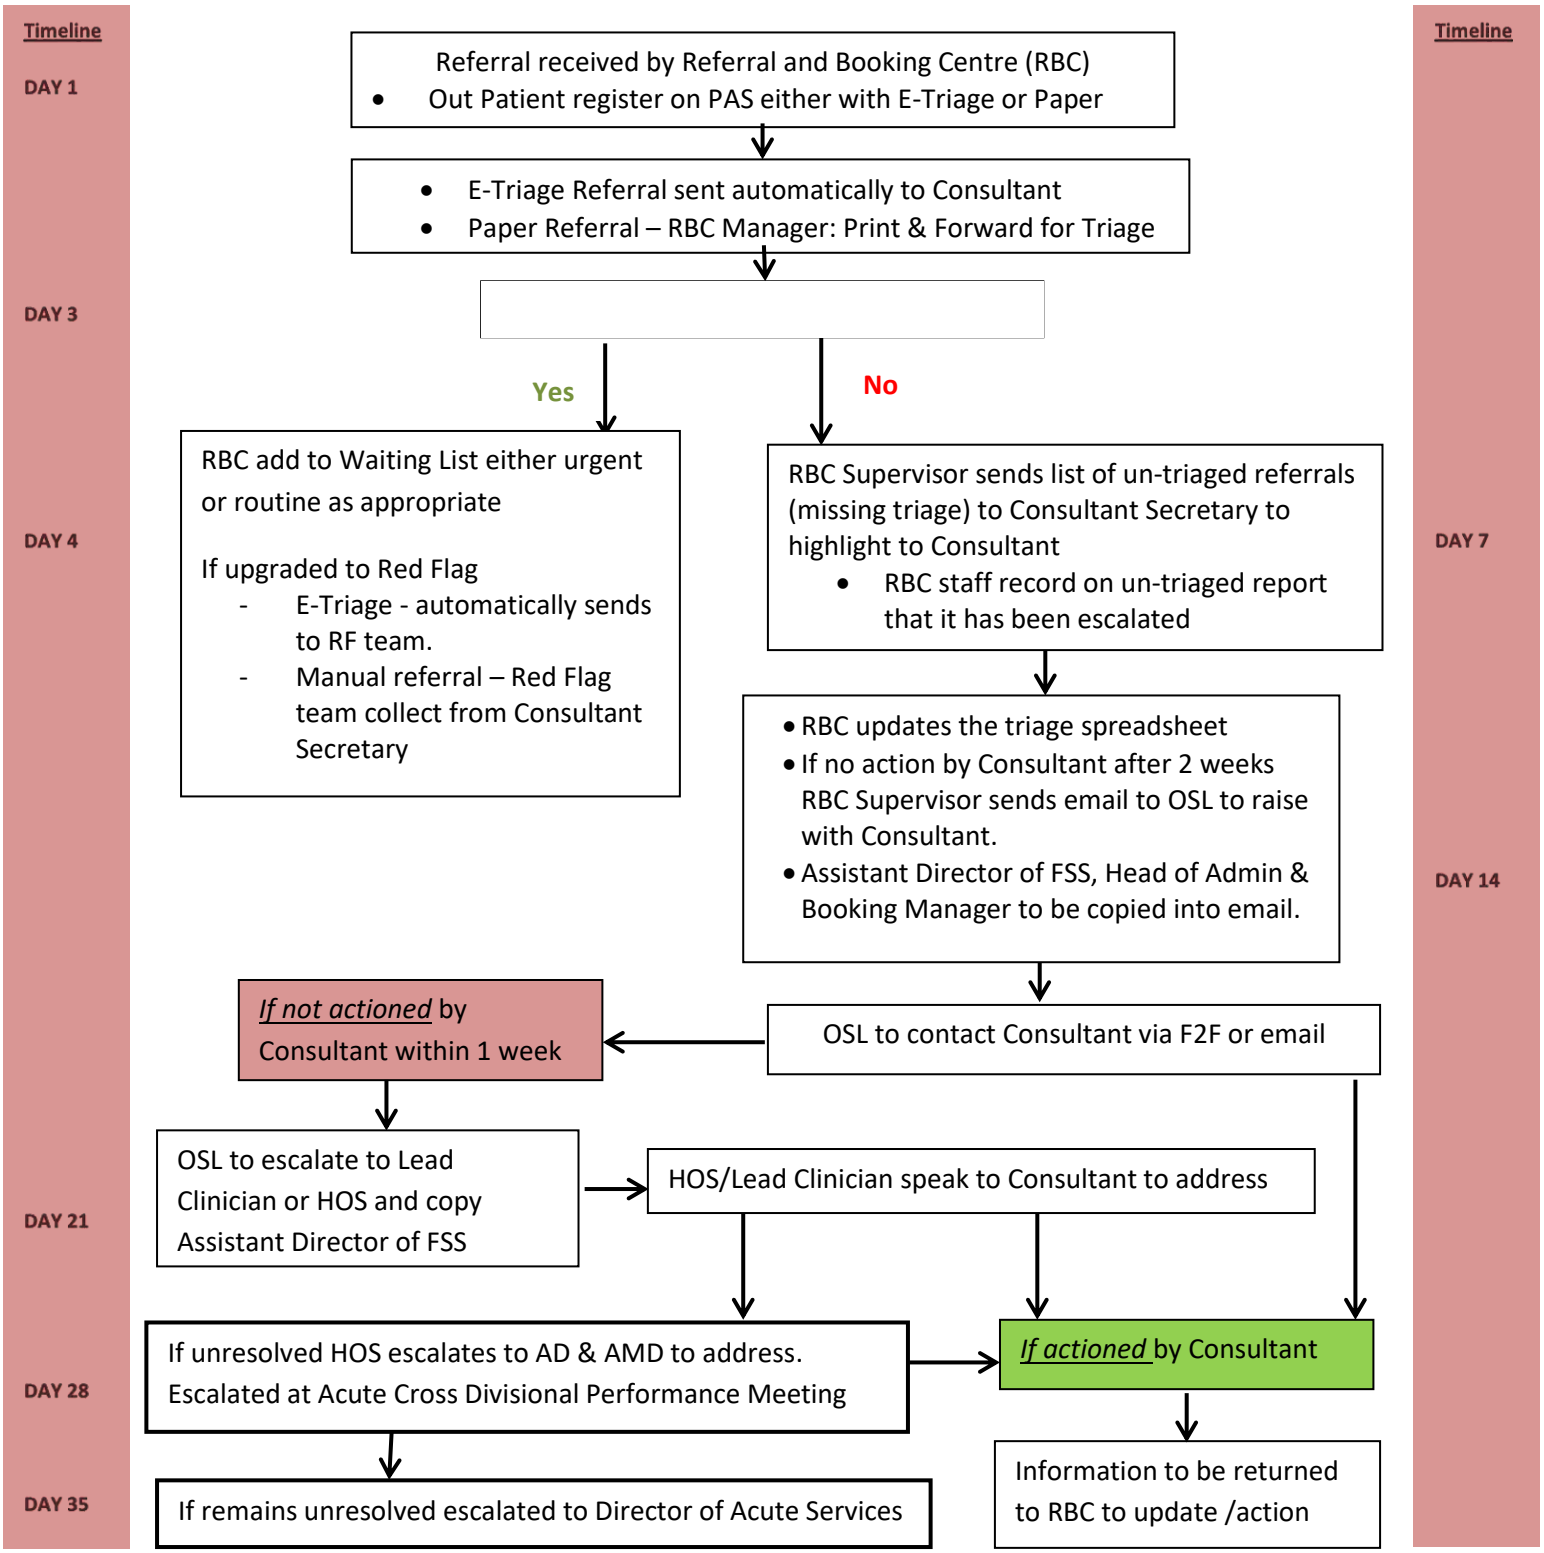
See comments re triage I will chase up kate

TRIAGE PROCESS

- **Red Flag referrals should be returned from Triage within 24hrs**
- **Urgent referrals should be returned from Triage within 72hrs**
- **Routine referrals should be returned from Triage within week.**

PURPOSE OF TRIAGE

- Consultant triage is to confirm that the speciality is appropriate and the clinical urgency is appropriate.
- It directs the referral to an appropriate service within the speciality (e.g. to vascular surgeons etc.)
- It allows the Consultant to request any investigations which the patient will require prior to outpatient attendance
- The Consultant can return referrals with advice and no outpatient attendance where appropriate.



Note: This process will incur a minimum of 5 weeks in total if referral is un-triaged within the target times which means that if the referral is upgraded to Red Flag it is in excess of 14 day Red Flag turnaround.
It is the responsibility of the Consultant to ensure Triage is done within the appropriate timescales detailed above.

ADMINISTRATIVE & CLERICAL Standard Operating Procedure

Title	Consultant to Consultant Referrals	
S.O.P. Section	Referral and Booking Centre	
Version Number	v1.0	**Supersedes:** v0.1
Author	Katherine Robinson	
Page Count	3	
Date of Implementation	January 2011	
Date of Review	January 2012	**To be Reviewed by:** Admin and Clerical Manager's Group
Approved by	Admin and Clerical Manager's Group	

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Standard Operating Procedure (S.O.P)
Referral and Booking Centre Procedures

Introduction

This SOP outlines the procedures followed by the Referral and Booking Centre to recognise a referral is in place from one consultant to another.

Implementation

This procedure is already effective and in operation in the Referral and Booking Centre.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Consultant to Consultant Referrals

The secretary for the consultant referring the patient should OP REG the patient on PAS with the OP REG date being the date the decision to refer was made (eg the clinic date)

This is done by using the Function:
DWA – ORE.

The name of the *referring consultant* should be entered into the comment field NOT the name of the consultant being referred to. Referrals should then be directed to the Referral and Booking Centre not to the secretary.

This will ensure that the patient now appears on a PTL and that the booking clerks will know who referred the patient and when.

When doing this the **Referral Source should be OC** (Other Consultant) **and NOT CON.**

Patients registered with a referral source as ‘Con’ do not appear on a PTL and can be missed.

Although all referrals are date stamped when they are received into the Referral and Booking centre – the original referral date will remain and will not be amended.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Services not using e-triage	
ORTHOPAEDIC GERIATRICS	Planned e-triage commencement Jan/Feb 2021
HAEMATOLOGY	Planned implementation postpone due to service pressures
NEPHROLOGY	Currently taking a break from e-triage, will relook at recommencing early 2021
GENERAL MEDICINE	Minimal referrals to this service but working with service looking towards implementation early 2021
BREAST SURGERY	Consultants not currently keen on e-triage – reengaged with service
GERIATRIC MEDICINE	Currently engaging with service

1. INTRODUCTION

1.1 The Trust came into existence on 1 April 2007 and is responsible for providing acute care across three sites namely:-

- Craigavon Area Hospital, Portadown
- Daisy Hill Hospital, Newry
- South Tyrone Hospital, Dungannon

1.2 The Trust welcomes additional income that can be generated from the following sources:-

- Private Patients
- Fee Paying Services
- Overseas Visitors

1.3 All income generated from these sources is deemed to make a valued contribution to the running costs of the Trust and will be reinvested to improve our facilities to benefit NHS and private patients alike.

1.4 All policies and procedures in relation to these areas will be carried out in accordance with Trust guidelines.

1.5 For further information please do not hesitate to contact the Paying Patient Office. [email: Personal Information redacted by the USI or http://www.southerndocs.hscni.net/paying-patients/

2. OBJECTIVES

2.1 The purpose of this guideline is to:

- Standardise the manner in which all paying patient practice is conducted in the organisation.
- Raise awareness of the duties and responsibilities within the health service of medical staff engaging in private practice and fee paying services within the Trust.
- Raise awareness of the duties and responsibilities of all Trust staff, clinical and non-clinical in relation to the treatment of paying patients and fee paying services within the Trust.
- Ensure fairness to both NHS patients and fee paying patients at all times.
- Clarify for relevant staff the arrangements pertaining to paying patients and to give guidance relating to
  - record keeping
  - charging

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

- procedures and
- responsibilities for paying patient attendances, admissions and fee paying services.

- Clarify charging arrangements when consultants undertake fee paying services within the Trust.

3. CATEGORIES OF WORK COVERED BY THIS GUIDE

3.1 Fee Paying Services

3.1.1 Any paid professional services, other than those falling within the definition of Private Professional Services, which a consultant carries out for a third party or for the employing organisation and which are not part of, nor reasonably incidental to, Contractual and Consequential Services. A third party for these purposes may be an organisation, corporation or individual, provided that they are acting in a health related professional capacity, or a provider or commissioner of public services. Examples of work that fall within this category can be found in Schedule 10 of the Terms and Conditions (Appendix 1).

3.2 Private Professional Services *(also referred to as 'private practice')*

3.2.1 The diagnosis or treatment of patients by private arrangement (including such diagnosis or treatment under Article 31 of the Health and Personal Social Services (Northern Ireland) Order 1972), excluding fee paying services as described in Schedule 10 of the terms and conditions.

3.2.2 Work in the general medical, dental or ophthalmic services under Part IV of the Health and Personal Social Services (Northern Ireland) Order 1972 (except in respect of patients for whom a hospital medical officer is allowed a limited 'list', e.g. members of the hospital staff).

3.3 Overseas Visitors

3.3.1 The National Health Service provides healthcare free of charge to people who are a permanent resident in the UK/NI. A person does not become an ordinarily resident simply by having British Nationality; holding a British Passport; being registered with a GP, or having an NHS number. People who do not permanently live in NI/UK are not automatically entitled to use the NHS free of charge.

3.3.2 **RESIDENCY** is therefore the main qualifying criterion.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

4. POLICY STATEMENT

4.1 Medical consultant staff have the right to undertake Private Practice and Fee paying services within the Terms and Conditions of the new Consultant Contract as agreed within their annual job plan review and with the approval of the Medical Director.

4.2 This Trust provides the same care to all patients, regardless of whether the cost of their treatment is paid for by HSC Organisations, Private Medical Insurance companies or by the patient.

4.3 Private Practice and Fee Paying services at the Trust will be carried out in accordance with:

- The Code of Conduct for private practice, the recommended standard of practice for NHS consultants as agreed between the BMA and the DHSSPS (Appendix 2).
- Schedule 9 of the Terms and Conditions of the Consultant contract which sets out the provisions governing the relationship between HPSS work and private practice (Appendix 8).
- The receipt of additional fees for Fee Paying services as defined in Schedule 10 of the Terms and Conditions of the Consultant Contract (Appendix 1).
- The principles set out in Schedule 11 of the above contract (Appendix 5).

4.4 All patients treated within the Trust, whether private or NHS should, where possible:

- be allocated a unique hospital identifier
- be recorded on the Patient Administration System and
- have a Southern Health & Social Care Trust chart.

4.5 The Trust shall determine the prices to be charged in respect of all income to which it is entitled as a result of private practice or other fee paying services which take place within the Trust.

5. CONSULTANT MEDICAL STAFF RESPONSIBILITIES

5.1 Private Practice

5.1.1 While Medical consultant staff have the right to undertake Private Practice within the Terms and Conditions of the new Consultant Contract as agreed within their annual job plan review, it is the responsibility of consultants, prior to the provision of any diagnostic tests or treatment to:

- ensure that their private patients (whether In, Day or Out) are identified and notified to the Paying Patients Officer.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

- ensure full compliance with the Code of Conduct for Private Practice (see Appendix 2) in relation to referral to NHS Waiting Lists.
- ensure that patients are aware of and understand the range of costs associated with private treatment including hospital costs and the range of professional fees which the patient is likely to incur, to include Surgeon/Physician, Anaesthetist, Radiologist, Pathologist, hospital charges. Leaflets can be obtained from the Paying Patients Officer or the Paying Patients section of Southern Docs website – click here.
- obtain prior to admission and at each outpatient attendance a signed, witnessed Undertaking to Pay form (Appendix 3) which must then be sent to the Paying Patient Officer for the relevant hospital at least three weeks before the admission date. This document must contain details of all diagnostic tests and treatments prescribed.
- Establish the method of payment at the consultation stage and obtain details of insured patients' private medical insurance policy information. The Trust requires this information to be forwarded to the Paying Patient Officer **prior to admission** so that patients' entitlement to insurance cover can be established. This should be recorded on the Undertaking to Pay form [Appendix 3].
- Ensure that all patients, where appropriate, are referred by the appropriate channels, i.e. GP/other consultant.
- Ensure that private patient services that involve the use of NHS staff or facilities are not undertaken except in emergencies, unless an undertaking to pay for treatment has been obtained from (or on behalf of) the patient, in accordance with the Trust's procedures.
- Ensure that information pertaining to their private patient work is included in their annual whole practice appraisal.

5.2 Fee Paying Services - *see Appendix 1 for examples*

5.2.1 The Consultant job plan review will cover the provision of fee paying services within the Trust. Consultants are required to declare their intention to undertake Fee Paying Services work by forwarding the Paying Patient Declaration form to the Medical Director's office.

5.2.2 A price list for fee paying services is available from the Paying Patients Office or the Paying Patients section of Southern Docs website – click here. It is the responsibility of the Consultant to ensure that the Trust is reimbursed for all costs incurred while facilitating fee paying services work undertaken. These costs could include:

- use of Trust accommodation;
- tests or other diagnostic procedures performed;
- radiological scans.

5.2.3 Consultants who engage in fee paying activities within the Trust are required to remit to the Trust on a quarterly basis the income due.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

1.2.4 Consultants should retain details of all patients seen for medical legal purposes. These should be submitted by the consultant on a quarterly basis along with the corresponding payment. See Section 11 for further details.

5.3 Additional Programmed Activities

5.3.1 Consultants should agree to accept an extra paid programmed activity in the Trust, if offered, before doing private work. The following points should be borne in mind:

- If Consultants are already working 11 Programmed Activities (PAs) (or equivalent) there is no requirement to undertake any more work.
- A Consultant could decline an offer of an extra PA and still work privately, but with risk to their pay progression for the year in question.
- Any additional PAs offered must be offered equitably between all Consultants in that specialty; if a colleague takes up those sessions there would be no detriment to pay progression for the other Consultants.

5.3.2 Consultant Medical Staff are governed by The Code of Conduct for Private Practice 2003 (at Appendix 2).

6. RESTRICTIONS ON PRIVATE PRACTICE FOR CONSULTANT MEDICAL STAFF

6.1 New Consultants

6.1.1 Newly appointed consultants (including those who have held consultant posts elsewhere in the NHS, or equivalent posts outside the NHS) may not undertake private practice within the Trust or use the Trusts facilities or equipment for private work, until the arrangements for this have been agreed in writing with the Trust Medical Director. A job plan must also have been agreed. An application to undertake private practice should be made in writing to the Medical Director through completion of the Paying Patient Declaration. New consultants permitted to undertake private work must make themselves known to the Paying Patients Officer.

6.2 Locum Consultants

6.2.1 Locum consultants may not engage in Private Practice within the first three months of appointment and then not until the detailed Job Plan has been agreed with the relevant Clinical Manager and approval has been granted by the Medical Director. This is subject to the agreement of the patient/insurer.

6.3 Non Consultant Grade Medical Staff

6.3.1 Non-consultant medical staff practitioners such as Associate Specialists may undertake Category 2 or private outpatient work, with the approval of the

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Medical Director following confirmation that the practitioner undertakes such work outside his/her programmed activities as per their agreed job plan.

6.3.2 Other than in the circumstances described above, staff are required to assist the consultant to whom they are responsible with the treatment of their private patients in the same way as their NHS patients. The charge paid by private patients to the hospital covers the whole cost of the hospital treatment including that of all associated staff.

7. CHANGE OF STATUS BETWEEN PRIVATE AND NHS

7.1 Treatment Episode

7.1.1 A patient who sees a consultant privately shall continue to have private status throughout the entire treatment episode.

7.2 Single Status

7.2.1 An outpatient cannot be both a Private and an NHS patient for the treatment of the one condition during a single visit to an NHS hospital.

7.3 Outpatient Transfer

7.3.1 However a private outpatient at an NHS hospital is legally entitled to change his/her status for any a subsequent visit and seek treatment under the NHS, subject to the terms of any undertaking he/she has made to pay charges.

7.4 Waiting List

7.4.1 A patient seen privately in consulting rooms who then becomes an NHS patient joins the waiting list at the same point as if his/her consultation had taken place as an NHS patient.

7.5 Inpatient Transfer

7.5.1 A private inpatient has a similar legal entitlement to change his/her status. This entitlement can only be exercised when a significant and unforeseen change in circumstances arises e.g. when they enter hospital for a minor operation and they are found to be suffering from a different more serious complaint. He/she remains liable to charges for the period during which he/she was a private patient.

7.6 During Procedure

7.6.1 A patient may request a change of status during a procedure where there has been an unpredictable or unforeseen complexity to the procedure. This can be tested by the range of consent required for the procedure.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

7.7 Clinical Priority

7.7.1 A change of status from Private to NHS must be accompanied by an assessment of the patient's clinical priority for treatment as an NHS patient.

7.8 Change of Status Form

7.8.1 Where a change of status is required a 'Change of Status' Form (Appendix 4) must be completed and sent to the Paying Patients Officer. This includes the reason for the change of status which will be subject to audit and must be signed by both the consultant and Paying Patients Officer. The Paying Patients Officer will ensure that the Medical Director approves the 'Change of Status' request.

7.8.2 It is important to note that until the Change of Status form has been approved by the Medical Director the patient's status will remain private and they may well be liable for charges.

8. TRUST STAFF RESPONSIBILITIES RELATING TO PRIVATE PATIENTS AND FEE PAYING SERVICES

8.1 A private patient is one who formally undertakes to pay charges for healthcare services regardless of whether they self-pay or are covered by insurance and all private patients must sign a form to that effect (Undertaking to Pay form at Appendix 3) prior to the provision of any diagnostic tests or treatments. Trust staff are required to have an awareness of this obligation.

8.2 The charge which private patients pay to the Trust covers the total cost of the hospital treatment excluding consultant fees. Trust staff are required to perform their duties in relation to all patients to the same standard. No payment should be made to or accepted by any non-consultant member of Trust staff for carrying out normal duties in relation to any patients of the Trust.

9. OPERATIONAL ARRANGEMENTS

9.1 Each hospital within the Trust has a named officer [Paying Patients Officer] who should be notified in advance of all private patient admissions and day cases. The Paying Patient Officer is responsible for ensuring that the Trust recovers all income due to the Trust arising from the treatment of private patients.

9.2 The Paying Patients Officer, having received the signed and witnessed Undertaking to Pay **Form at least three weeks** before the planned procedure will identify the costs associated with the private patient stay, will confirm entitlement to insurance cover where relevant and will raise invoices on a timely basis. [See Flow Chart 1]

9.3 The Medical Director will advise the Paying Patients Officer when a consultant has been granted approval to undertaken private practice. The Paying Patients Officer will advise the consultant of the procedures involved in undertaking private practice in the Trust.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

9.4 Clinical governance is defined as a framework through which NHS organisations are accountable for continuously improving the quality of their services and safeguarding high standards of care by creating an environment in which excellence in clinical care will flourish.

9.5 This framework applies to all patients seen within this Trust. It is therefore a fundamental requirement of Clinical Governance that all patients treated within the Trust must be examined or treated in an appropriate clinical setting.

9.6 Any fee or emolument etc. which may be received by an employee in the course of his or her clinical duties shall, unless the Trust otherwise directs, be surrendered to the Trust. For further information please see Southern Trust Gifts and Hospitality Standards of Conduct policy.

9.7 Record Keeping Systems and Private Patients

9.7.1 All patients regardless of their status should, where possible, be recorded on Hospital Systems and their status classified appropriately. These systems include for example:

- Patient Administration System (PAS)
- Northern Ireland Maternity System (NIMATS)
- Laboratory System
- Radiology System(e.g. Sectra, PACS, NIRADS, RIS etc)

9.8 Health Records of Private Patients

9.8.1 All hospital health records shall remain the property of the Trust and should only be taken outside the Trust to assist treatment elsewhere:

- when this is essential for the safe treatment of the patient
- when an electronic record of the destination of the notes is made using the case note tracking system
- when arrangements can be guaranteed that such notes will be kept securely
- provided that nothing is removed from the notes

9.8.2 Consultants who may have access to notes for private treatment of patients must agree to return the notes without delay. Either originals or copies of the patient's private notes should be held with their NHS notes. Patients' notes should not be removed from Trust premises. Requests for notes for medico-legal purposes should be requested by plaintiff's solicitor through the normal channels.

9.8.3 Since the Trust does not have a right of access to patient notes held in non NHS facilities, when patients are seen privately outside the Trust their first appointment within the Trust, unless with the same consultant, will be treated as a 'new appointment' rather than a 'review appointment'.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

9.8.4 In the event of a 'Serious Adverse Incident' or legal proceedings the Trust may require access to private patient medical records which should be held in accordance with GMC Good Record Keeping Guidance.

9.9 Booking Arrangements for Admissions and Appointments

9.9.1 A record of attendance should be maintained, where possible, for all patients seen in the Trust. All private in, day and out patients should as far as possible be pre-booked on to the hospital information systems. Directorates are responsible for ensuring that all relevant information is captured and 'booking in' procedures are followed. Each department should ensure that all such patients are recorded on PAS etc. within an agreed timescale which should not extend beyond month end.

9.10 Walk Ins

9.10.1 A private patient who appears at a clinic and has no record on PAS should be treated for record keeping purposes in exactly the same manner as an NHS patient (walk in) i.e. relevant details should be taken, registry contacted for a number and processed in the usual fashion. A record should be kept of this patient and the Paying Patient Officer informed.

9.11 Radiology

9.11.1 All patients seen in Radiology should be given a Southern Health and Social Care hospital number.

9.12 Private Patient Records

9.12.1 All records associated with the treatment of private patients should be maintained in the same way as for NHS patients. This includes all files, charts, and correspondence with General Practitioners.

9.12.2 Accurate record keeping assists in the collection of income from paying patients.

9.12.3 It should be noted that

- any work associated with private patients who are not treated within this Trust or consultants private diary work and correspondence associated with patients seen elsewhere should not be carried out within staff time which is paid for by the Trust.

9.13 Tests Investigations or Prescriptions for Private Patients

9.13.1 The consultant must ensure that the requests for all laboratory work, ie. radiology, prescriptions, dietetics, physiotherapy etc. are clearly marked as Private.

9.13.2 Consultants should not arrange services, tests investigations or prescriptions until the person has signed an Undertaking to Pay form which will cover the episode of care [Appendix 3]. This must be submitted three weeks before any planned procedure.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

9.14 Medical Reports

9.14.1 In certain circumstances Insurance Companies will request a medical report from the consultant. It is the consultant's responsibility to ensure that this report is completed in the timeframe required by the insurance company otherwise the Trust's invoice may remain unpaid in whole or in part until the report has been received and assessed.

10. FINANCIAL ARRANGEMENTS - PRIVATE PATIENTS

10.1 Charges to Patients

10.1.1 Where patients, who are private to a consultant, are admitted to the hospital, or are seen as outpatients, charges for investigations/diagnostics will be levied by the hospital. A full list of charges is available from the Paying Patient Office on request. Patients should be provided with an estimate of the total fee that they will incur **before** the start of their treatment.

10.1.2 Prices are reviewed regularly to ensure that all costs are covered. A calendar of pricing updates will be agreed.

10.2 Charges for Use of Trust Facilities for Outpatients

10.2.1 It is the responsibility of the Doctor to recover the cost from the patient and reimburse the Trust, on a quarterly basis, for any outpatients which have been seen in Trust facilities. [See Flow Chart 2]

10.2.2 A per patient cost for the use of Trust facilities for outpatients is available. This will be reviewed annually.

10.2.3 It is responsibility of the doctor to maintain accurate records of outpatient attendances. It is an audit requirement that the Trust verifies that all income associated with use of Trust facilities for outpatients has been identified and collected. Accordingly, Doctors are required to submit a quarterly return to the Paying Patient office with the names of the patients seen together with details of any treatment or tests undertaken. This information should accompany the payment for the relevant fees as outlined above.

10.2.4 A Undertaking to Pay form will only be required if investigations/diagnostics are required.

10.3 Basis of Pricing

10.3.1 Charges are based on an accommodation charge, cost of procedure, including any prosthesis, and on a cost per item basis for all diagnostic tests and treatments e.g. physiotherapy, laboratory and radiology tests, ECGs etc. They do not include consultants' professional fees. Some package prices may be agreed.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

10.4 Uninsured Patients – Payment Upfront

10.4.1 Full payment prior to admission is required from uninsured patients. Consultants should advise patients that this is the case. The patient should be advised to contact the Paying Patients Officer regarding estimated cost of treatment. [See Flow Chart 4]

10.5 Insured Patients

10.5.1 The Undertaking to Pay Form also requires details of the patient's insurance policy. The Paying Patients Officer will raise invoices direct to the insurance company where relevant, in accordance with the agreements with individual insurance companies.

10.5.2 Consultants, as the first port of contact and the person in control of the treatment provided, should advise the patient to obtain their insurance company's permission for the specified treatment to take place within the specified timescale. [See Flow Chart 4]

10.6 Billing and Payment

10.6.1 The Paying Patients Officer co-ordinates the collation of financial information relating to patients' treatment, ensures that uninsured patients pay deposits and that invoices are raised accordingly. The financial accounts department will ensure all invoices raised are paid and will advise the Private Patient Officer in the event of a bad debt.

10.7 Audit

10.7.1 The Trust's financial accounts are subject to annual audit and an annual report is issued to the Trust Board, which highlights any area of weakness in control. Adherence to the Paying Patient Policy will form part of the Trust's Audit Plan. Consultants are reminded that they are responsible for the identification and recording of paying patient information. Failure to follow the procedures will result in investigation by Audit and if necessary, disciplinary action under Trust and General Medical Council regulations.

11. FINANCIAL ARRANGEMENTS FOR FEE PAYING SERVICES

11.1 Consultants may see patients privately or for fee paying services within the Trust only with the explicit agreement of the Medical Director, in accordance with their Job Plan. Management will decide to what extent, if any, Trust facilities, staff and equipment may be used for private patient or fee paying services and will ensure that any such services do not interfere with the organisation's obligations to NHS patients. This applies whether private services are undertaken in the consultant's own time, in annual or unpaid leave. [See Flow Chart 3]

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

11.2 In line with the Code of Conduct standards, private patient services should take place at times that do not impact on normal services for NHS patients. Private patients should normally be seen separately from scheduled NHS patients.

11.3 Fee Paying Services Policy (Category 2)

11.3.1 Fee Paying Services (Category 2) work is distinct from private practice, however it is still non NHS work as outlined in the 'Terms and Conditions for Hospital Medical and Dental Staff'. Refer to schedules 10 and 11 (Appendices 1 & 5 respectively) for further details.

11.3.2 There are a number of occasions when a Category 2 report will be requested, and they will usually be commissioned by, employers, courts, solicitors, Department of Work and Pensions etc. the report may include radiological opinion, blood tests or other diagnostic procedures

11.3.3 It is the responsibility of the Doctor to ensure that the Trust is reimbursed for all costs incurred in undertaking Category 2 work, this not only includes the use of the room but also the cost of any tests undertaken.

11.3.4 In order to comply with the Trusts financial governance controls it is essential that all Fee Paying services are identified and the costs recovered. It is not the responsibility of the Trust to invoice third parties for Category 2 work.

11.3.5 It is the responsibility of the Doctor to recover the cost from the third party and reimburse the Trust, on a quarterly basis, for any Category 2 services they have undertaken, including the cost of any treatments/tests provided.

11.3.6 The Category 2 (room only) charge per session will be reviewed annually.

11.3.7 A per patient rate may be available subject to agreement with the Paying Patient Manager

11.3.8 It is responsibility of the doctor to maintain accurate records of Category 2 attendances. It is an audit requirement that the Trust verifies that all income associated with Category 2 has been identified and collected.

11.3.9 Doctors are required to submit a quarterly return to the Paying Patient office with the names of the patients seen together with details of any treatment or tests undertaken. This information should accompany the payment for the relevant fees of Category 2 work as outlined above and should be submitted no later than ten days after the quarter end.

11.3.10 In order to comply with Data Protection requirements, Doctors must therefore inform their Category 2 clients that this information is required by the Trust and obtain their consent. Consultants should make a note of this consent.

11.3.11 Compliance to this policy will be monitored by the Paying Patient Manager and the Medical Director's Office.

11.3.12 The Consultant is responsible to HM Revenue and Customs to declare for tax purposes all Category 2 income earned. The Trust has no obligation in this respect.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

11.3.13 Any Category 2 work undertaken for consultants by medical secretaries must be completed outside of their normal NHS hours. Consultants should be aware of their duty to inform their secretaries that receipt of such income is subject to taxation and must be declared to HM Revenue and Customs. It is recommended that Consultants keep accurate records of income and payment.

12. RENUNCIATION OF PRIVATE FEES

12.1 In some departments, consultants may choose to forego their private fees for private practice or for fee paying services in favour of a Charitable Fund managed by the Trust that could be drawn upon at a later stage for, by way of example, Continuous Professional Development / Study Leave.

12.2 For income tax purposes all income earned must be treated as taxable earnings. The only way in which this income can be treated as non taxable earnings of the consultant concerned is if the consultant signs a 'Voluntary Advance Renunciation of Earnings form' (Appendix 7) and declares that the earnings from a particular activity will belong to a named charitable fund and that the earnings will not be received by the consultant. In addition a consultant should never accept a cheque made out to him or her personally. To do so attracts taxation on that income and it cannot be subsequently renounced. Therefore all such income renounced in advance should be paid directly into the relevant fund. Income can only be renounced if it has not been paid to the individual and a Register of these will be maintained by the Charitable Funds Officer.

12.3 The Trust will be required to demonstrate that income renounced in favour of a Charitable Fund is not retained for the use of the individual who renounces it. Thus, in the event of any such consultant subsequently drawing on that fund, any such expenditure approval must be countersigned by another signatory on the fund.

13. OVERSEAS VISITORS - NON UK PATIENTS

(Republic of Ireland, EEA, Foreign Nationals)

PLEASE NOTE THIS IS ONLY A BRIEF GUIDE FOR FURTHER INFORMATION PLEASE CONTACT THE PAYING PATIENT OFFICE

13.1 The NHS provides healthcare free of charge to people who are 'ordinarily resident' in the UK. People who do not permanently live in the UK lawfully are not automatically entitled to use the NHS free of charge.

13.2 **RESIDENCY** is the therefore the main qualifying criterion, applicable regardless of nationality, being registered with a GP or having been issued a HC/NHS number, or whether the person holds a British Passport, or lived and paid taxes or national insurance contributions in the UK in the past.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

13.3 Any patient attending the Trust who cannot establish that they are an ordinary resident and have lawfully lived in the UK permanently for the last 12 months preceding treatment are not entitled to free non ED hospital treatment whether they are registered with a GP or not. A GP referral letter cannot be accepted solely as proof of a patient's permanent residency and therefore entitlement to treatment.

13.4 For all new patients attending the Trust, residency must be established. All patients will be asked to complete a declaration to confirm residency, (regardless of race/ethnic origin). If not the Trust could be accused of discrimination.

13.5 Where there is an element of doubt as to whether the patient is an 'ordinary resident' eg no GP/ H&C number or non UK contact details, the Paying Patients Officer must be alerted immediately.

13.6 Emergency Department

13.6.1 Treatment given in an Emergency Department, Walk in Clinic or Minor Inuries Unit is free of charge if it is deemed to be immediate and necessary.

13.6.2 The Trust should always provide immediate and necessary treatment whether or not the patient has been informed of or agreed to pay charges .There is no exemption from charges for 'emergency' treatment other than that given in the accident and emergency department. Once an overseas patient is transferred out of Emergency Department their treatment becomes chargeable.

13.6.3 All patients admitted from Emergency Department must be asked to complete declaration of residency status.

13.6.4 This question is essential in trying to establish whether the patient is an overseas patient or not and hence liable to pay for any subsequent care provided.

13.6.5 If the patient is not an ordinary resident or there is an element of doubt eg no GP/ no H&C Number, the patient should be referred to Paying Patients Office to determine their eligibility.

13.6.6 If the person has indicated that they are a visitor to Northern Ireland, the overseas address must be entered as the permanent address on the correct Patient Administrative System and the Paying Patients Office should be notified immediately.

13.7 Outpatient Appointments

13.7.1 In all cases where the patient has not lived in Northern Ireland for 12 months or relevant patient data is missing such as H&C number, GP Details etc the patient must be referred to the Paying Patients Office to establish the patient's entitlement to free NHS treatment. This must be established before an appointment is given.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

13.8 Review Appointments

13.8.1 Where possible follow up treatment should be carried out at the patient's local hospital, however if they are reviewed at the Trust they must be informed that they will be liable for charges.

13.8.2 If a consultant considers it appropriate to review a patient then they must sign a statement to this effect waiving the charges that would have been due to the Trust.

13.9 Elective Admission

13.9.1 A patient should not be placed onto a waiting list until their entitlement to free NHS Treatment has been established. Where the Patient is chargeable, the Trust should not initiate a treatment process until a deposit equivalent to the estimated full cost of treatment has been obtained.

13.10 Referral from other NHS Trusts

13.10.1 When a Consultant accepts a referral from another Trust the patients' status should, where possible, be established prior to admission. However, absence of this information should not delay urgent treatment.

13.10.2 The Trust will operate a policy of 'Stabilise and Transfer'.

14. AMENITY BED PATIENTS

14.1 Within the Trust's Maternity Service, a number of beds are assigned Amenity Beds. It is permissible for NHS patients who require surgical delivery and an overnight stay to pay for any bed assigned as an Amenity Bed. This payment has no effect on the NHS status of the patient. All patients identified as amenity will be recorded on PAS as APG and an Undertaking to Pay for an Amenity Bed form (Appendix 6) should be completed ideally before obtaining the amenity facilities.

15. GLOSSARY

Undertaking to Pay Form

Private Patients may fund their treatment, or they may have private medical insurance. In all cases Private Patients must sign an 'Undertaking to Pay' form (Appendix 3). This is a legally binding document which, when signed prior to treatment, confirms the patient as personally liable for costs incurred while at hospital and confirms the Patient's Private status. ALL private patients, whether insured or not are obliged to complete and sign an 'Undertaking to Pay' form, prior to commencement of treatment. Consultants therefore, as the first point of contact should ensure that the Paying Patients Officer is advised to ensure completion of the 'Undertaking to Pay' form.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Fee Paying Services
Any paid professional services, other than those falling within the definition of Private Professional Services, which a consultant carries out for a third party or for the employing organisation and which are not part of, nor reasonably incidental to, Contractual and Consequential Services. A third party for these purposes may be an organisation, corporation or individual, provided that they are acting in a health related professional capacity, or a provider or commissioner of public services. Examples of work that fall within this category can be found in Schedule 10 of the Terms and Conditions (Appendix 1).

Private Professional Services *(Also referred to as 'private practice')*

- the diagnosis or treatment of patients by private arrangement (including such diagnosis or treatment under Article 31 of the Health and Personal Social Services (Northern Ireland) Order 1972), excluding fee paying services as described in Schedule 10 of the terms and conditions (Appendix 1).

- work in the general medical, dental or ophthalmic services under Part IV of the Health and Personal Social Services (Northern Ireland) Order 1972 (except in respect of patients for whom a hospital medical officer is allowed a limited 'list', e.g. members of the hospital staff).

Non UK patients
A person who does not meet the 'ordinarily resident' test.

Job Plan
A work programme which shows the time and place of the consultant's weekly fixed commitments.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

16. APPENDIX 1: SPECIFIC EXAMPLES OF FEE PAYING SERVICES - SCHEDULE 10

1. Fee Paying Services are services that are not part of Contractual or Consequential Services and not reasonably incidental to them. Fee Paying Services include:

   a. work on a person referred by a Medical Adviser of the Department of Social Development, or by an Adjudicating Medical Authority or a Medical Appeal Tribunal, in connection with any benefits administered by an Agency of the Department of Social Development;

   b. work for the Criminal Injuries Compensation Board, when a special examination is required or an appreciable amount of work is involved in making extracts from case notes;

   c. work required by a patient or interested third party to serve the interests of the person, his or her employer or other third party, in such nonclinical contexts as insurance, pension arrangements, foreign travel, emigration, or sport and recreation. (This includes the issue of certificates confirming that inoculations necessary for foreign travel have been carried out, but excludes the inoculations themselves. It also excludes examinations in respect of the diagnosis and treatment of injuries or accidents);

   d. work required for life insurance purposes;

   e. work on prospective emigrants including X-ray examinations and blood tests;

   f. work on persons in connection with legal actions other than reports which are incidental to the consultant's Contractual and Consequential Duties, or where the consultant is giving evidence on the consultant's own behalf or on the employing organisation's behalf in connection with a case in which the consultant is professionally concerned;

   g. work for coroners, as well as attendance at coroners' courts as medical witnesses;

   h. work requested by the courts on the medical condition of an offender or defendant and attendance at court hearings as medical witnesses, otherwise than in the circumstances referred to above;

   i. work on a person referred by a medical examiner of HM Armed Forces Recruiting Organisation;

   j. work in connection with the routine screening of workers to protect them or the public from specific health risks, whether such screening is a statutory obligation laid on the employing organisation by specific regulation or a voluntary undertaking by the employing organisation in pursuance of its general liability to protect the health of its workforce;

   k. occupational health services provided under contract to other HPSS, independent or public sector employers;

   l. work on a person referred by a medical referee appointed under the Workmen's Compensation (Supplementation) Act (Northern Ireland) 1966; work on prospective students of universities or other institutions of further education, provided that they are not covered by Contractual and Consequential Services. Such examinations may include chest radiographs;

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

m. Appropriate examinations and recommendations under Parts II and IV of the Mental Health (Northern Ireland) Order 1986 and fees payable to medical members of Mental Health Review Tribunals;

n. services performed by members of hospital medical staffs for government departments as members of medical boards;

o. work undertaken on behalf of the Employment Medical Advisory Service in connection with research/survey work, i.e. the medical examination of employees intended primarily to increase the understanding of the cause, other than to protect the health of people immediately at risk (except where such work falls within Contractual and Consequential Services);

p. completion of Form B (Certificate of Medical Attendant) and Form C (Confirmatory Medical Certificate) of the cremation certificates;

q. examinations and reports including visits to prison required by the Prison Service which do not fall within the consultant's Contractual and Consequential Services and which are not covered by separate contractual arrangements with the Prison Service;

r. examination of blind or partially-sighted persons for the completion of form A655, except where the information is required for social security purposes, or by an Agency of the Department of Social Development, or the Employment Service, or the patient's employer, unless a special examination is required, or the information is not readily available from knowledge of the case, or an appreciable amount of work is required to extract medically correct information from case notes;

s. work as a medical referee (or deputy) to a cremation authority and signing confirmatory cremation certificates;

t. medical examination in relation to staff health schemes of local authorities and fire and police authorities;

u. delivering lectures;

v. medical advice in a specialised field of communicable disease control;

w. attendance as a witness in court;

x. medical examinations and reports for commercial purposes, e.g. certificates of hygiene on goods to be exported or reports for insurance companies;

y. advice to organisations on matters on which the consultant is acknowledged to be an expert.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

17. APPENDIX 2 - A CODE OF CONDUCT FOR PRIVATE PRACTICE

November 2003

Recommended Standards of Practice for NHS Consultants

An agreement between the BMA's Northern Ireland Consultants and Specialists Committee and the Department of Health, Social Services and Public Safety for consultants in Northern Ireland.

A CODE OF CONDUCT FOR PRIVATE PRACTICE: RECOMMENDED STANDARDS FOR NHS CONSULTANTS, 2003

Contents

Page 6 Part III - Managing Private Patients in NHS Facilities

- Use of NHS Facilities
- Use of NHS Staff

Part I: Introduction

Scope of Code

1.1 This document sets out recommended standards of best practice for NHS consultants in England about their conduct in relation to private practice . The standards are designed to apply equally to honorary contract holders in respect of their work for the NHS. The Code covers all private work, whether undertaken in non-NHS or NHS facilities.

1.2 Adherence to the standards in the Code will form part of the eligibility criteria for clinical excellence awards.

1.3 This Code should be used at the annual job plan review as the basis for reviewing the relationship between NHS duties and any private practice.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Key Principles

1.4 The Code is based on the following key principles:

- NHS consultants and NHS employing organisations should work on a partnership basis to prevent any conflict of interest between private practice and NHS work. It is also important that NHS consultants and NHS organisations minimise the risk of any perceived conflicts of interest; although no consultant should suffer any penalty (under the code) simply
- because of a perception;
- The provision of services for private patients should not prejudice the interest of NHS patients or disrupt NHS services;
- With the exception of the need to provide emergency care, agreed NHS commitments should take precedence over private work; and
- NHS facilities, staff and services may only be used for private practice with the prior agreement of the NHS employer.

Part II: Standards of Best Practice

Disclosure of Information about Private Practice

1.2 Consultants should declare any private practice, which may give rise to any actual or perceived conflict of interest, or which is otherwise relevant to the practitioner's proper performance of his/her contractual duties. As part of the annual job planning process, consultants should disclose details of regular private practice commitments, including the timing, location and broad type of activity, to facilitate effective planning of NHS work and out of hours cover.

2.2 Under the appraisal guidelines agreed in 2001, NHS consultants should be appraised on all aspects of their medical practice, including private practice. In line with the requirements of revalidation, consultants should submit evidence of private practice to their appraiser.

Scheduling of Work and On-Call Duties

2.3 In circumstances where there is or could be a conflict of interest, programmed NHS commitments should take precedence over private work. Consultants should ensure that, except in emergencies, private commitments do not conflict with NHS activities included in their NHS job plan.

2.4 Consultants should ensure in particular that:

- private commitments, including on-call duties, are not scheduled during times at which they are scheduled to be working for the NHS (subject to paragraph 2.8 below);
- there are clear arrangements to prevent any significant risk of private commitments disrupting NHS commitments, e.g. by causing NHS activities to begin late or to be cancelled;

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

- private commitments are rearranged where there is regular disruption of this kind to NHS work; and private commitments do not prevent them from being able to attend a NHS emergency while they are on call for the NHS, including any emergency cover that they agree to provide for NHS colleagues. In particular, private commitments that prevent an immediate response should not be undertaken at these times.

2.5 Effective job planning should minimise the potential for conflicts of interests between different commitments. Regular private commitments should be noted in a consultant's job plan, to ensure that planning is as effective as possible.

2.6 There will be circumstances in which consultants may reasonably provide emergency treatment for private patients during time when they are scheduled to be working or are on call for the NHS. Consultants should make alternative arrangements to provide cover where emergency work of this kind regularly impacts on NHS commitments.

2.7 Where there is a proposed change to the scheduling of NHS work, the employer should allow a reasonable period for consultants to rearrange any private sessions, taking into account any binding commitments entered into (e.g. leases).

Provision of Private Services alongside NHS Duties

2.8 In some circumstances NHS employers may at their discretion allow some private practice to be undertaken alongside a consultant's scheduled NHS duties, provided that they are satisfied that there will be no disruption to NHS services. In these circumstances, the consultants should ensure that any private services are provided with the explicit knowledge and agreement of the employer and that there is no detriment to the quality or timeliness of services for NHS patients.

Information for NHS Patients about Private Treatment

2.9 In the course of their NHS duties and responsibilities consultants should not initiate discussions about providing private services for NHS patients, nor should they ask other NHS staff to initiate such discussions on their behalf.

2.10 Where a NHS patient seeks information about the availability of, or waiting times for, NHS and/or private services, consultants should ensure that any information provided by them, is accurate and up-to-date and conforms with any local guidelines.

2.11 Except where immediate care is justified on clinical grounds, consultants should not, in the course of their NHS duties and responsibilities, make arrangements to provide private services, nor should they ask any other NHS staff to make such arrangements on their behalf unless the patient is to be treated as a private patient of the NHS facility concerned.

Referral of Private Patients to NHS Lists

2.12 Patients who choose to be treated privately are entitled to NHS services on exactly the same basis of clinical need as any other patient.

2.13 Where a patient wishes to change from private to NHS status, consultants should help ensure that the following principles apply:

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

- a patient cannot be both a private and a NHS patient for the treatment of one condition during a single visit to a NHS organisation;
- any patient seen privately is entitled to subsequently change his or her status and seek treatment as a NHS patient;
- any patient changing their status after having been provided with private services should not be treated on a different basis to other NHS patients as a result of having previously held private status;
- patients referred for an NHS service following a private consultation or private treatment should join any NHS waiting list at the same point as if the consultation or treatment were an NHS service. Their priority on the waiting list should be determined by the same criteria applied to other NHS patients; and
- should a patient be admitted to an NHS hospital as a private inpatient, but subsequently decide to change to NHS status before having received treatment, there should be an assessment to determine the patient's priority for NHS care.

Promoting Improved Patient Access to NHS Care and Increasing NHS Capacity

2.14 Subject to clinical considerations, consultants should be expected to contribute as fully as possible to maintaining a high quality service to patients, including reducing waiting times and improving access and choice for NHS patients. This should include co-operating to make sure that patients are given the opportunity to be treated by other NHS colleagues or by other providers where this will maintain or improve their quality of care, such as by reducing their waiting time.

2.15 Consultants should make all reasonable efforts to support initiatives to increase NHS capacity, including appointment of additional medical staff.

Part III – Managing Private Patients in NHS Facilities

3.1 Consultants may only see patients privately within NHS facilities with the explicit agreement of the responsible NHS organisation. It is for NHS organisations to decide to what extent, if any, their facilities, staff and equipment may be used for private patient services and to ensure that any such services do not interfere with the organisation's obligations to NHS patients.

3.2 Consultants who practise privately within NHS facilities must comply with the responsible NHS organisation's policies and procedures for private practice. The NHS organisation should consult with all consultants or their representatives, when adopting or reviewing such policies.

Use of NHS Facilities

3.3 NHS consultants may not use NHS facilities for the provision of private services without the agreement of their NHS employer. This applies whether private services are carried out in their own time, in annual or unpaid leave, or – subject to the criteria in paragraph 2.8 - alongside NHS duties.

3.4 Where the employer has agreed that a consultant may use NHS facilities for the provision of private services:

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

- the employer will determine and make such charges for the use of its services, accommodation or facilities as it considers reasonable;

- any charge will be collected by the employer, either from the patient or a relevant third party; and

- a charge will take full account of any diagnostic procedures used, the cost of any laboratory staff that have been involved and the cost of any NHS equipment that might have been used.

3.5 Except in emergencies, consultants should not initiate private patient services that involve the use of NHS staff or facilities unless an undertaking to pay for those facilities has been obtained from (or on behalf of) the patient, in accordance with the NHS body's procedures.

3.6 In line with the standards in Part II, private patient services should take place at times that do not impact on normal services for NHS patients. Private patients should normally be seen separately from scheduled NHS patients. Only in unforeseen and clinically justified circumstances should an NHS patient's treatment be cancelled as a consequence of, or to enable, the treatment of a private patient.

Use of NHS Staff

3.7 NHS consultants may not use NHS staff for the provision of private services without the agreement of their NHS employer.

3.8 The consultant responsible for admitting a private patient to NHS facilities must ensure, in accordance with local procedures, that the responsible manager and any other staff assisting in providing services are aware of the patient's private status.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

20. APPENDIX 5 PRINCIPLES GOVERNING RECEIPT OF ADDITIONAL FEES – SCHEDULE 11

Principles Governing Receipt of Additional Fees - Schedule 11

1. In the case of the following services, the consultant will not be paid an additional fee, or - if paid a fee - the consultant must remit the fee to the employing organisation:

- any work in relation to the consultant's Contractual and Consequential Services;
- duties which are included in the consultant's Job Plan, including any additional Programmed Activities which have been agreed with the employing organisation;
- fee paying work for other organisations carried out during the consultant's Programmed Activities, unless the work involves minimal disruption and the employing organisation agrees that the work can be done in HPSS time without the employer collecting the fee;
- domiciliary consultations carried out during the consultant's Programmed Activities;
- lectures and teaching delivered during the course of the consultant's clinical duties;
- delivering lectures and teaching that are not part of the consultant's clinical duties, but are undertaken during the consultant's Programmed Activities.
- Consultants may wish to take annual leave [having given the required 6 week notice period] to undertake fee paying work [e.g. court attendance] in this instance the consultant would not be required to remit fees to the Trust.

This list is not exhaustive and as a general principle, work undertaken during Programmed Activities will not attract additional fees.

2. Services for which the consultant can retain any fee that is paid:

- Fee Paying Services carried out in the consultant's own time, or during annual or unpaid leave;
- Fee Paying Services carried out during the consultant's Programmed Activities that involve minimal disruption to HPSS work and which the employing organisation agrees can be done in HPSS time without the employer collecting the fee;
- Domiciliary consultations undertaken in the consultant's own time, though it is expected that such consultations will normally be scheduled as part of Programmed Activities1;
- Private Professional Services undertaken in the employing organisation's facilities and with the employing organisation's agreement during the consultant's own time or during annual or unpaid leave;
- Private Professional Services undertaken in other facilities during the consultant's own time, or during annual or unpaid leave;
- Lectures and teaching that are not part of the consultant's clinical duties and are undertaken in the consultant's own time or during annual or unpaid leave;

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

- Preparation of lectures or teaching undertaken during the consultant's own time irrespective of when the lecture or teaching is delivered.

This list is not exhaustive but as a general principle the consultant is entitled to the fees for work done in his or her own time, or during annual or unpaid leave.

And only for a visit to the patient's home at the request of a general practitioner and normally in his or her company to advise on the diagnosis or treatment of a patient who on medical grounds cannot attend hospital.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

21. APPENDIX 6 - UNDERTAKING TO PAY CHARGES FOR AN AMENITY BED

Southern Health and Social Care Trust

_____

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

23. APPENDIX 8 - PROVISIONS GOVERNING THE RELATIONSHIP BETWEEN HPSS WORK AND PRIVATE PRACTICE - SCHEDULE 9

1. This Schedule should be read in conjunction with the 'Code of Conduct for Private Practice', which sets out standards of best practice governing the relationship between HPSS work and private practice.

2. The consultant is responsible for ensuring that their provision of Private Professional Services for other organisations does not:

   - result in detriment to HPSS patients;
   - diminish the public resources that are available for the HPSS.

Disclosure of information about Private Commitments

3. The consultant will inform his or her clinical manager of any regular commitments in respect of Private Professional Services or Fee Paying Services. This information will include the planned location, timing and broad type of work involved.

4. The consultant will disclose this information at least annually as part of the Job Plan Review. The consultant will provide information in advance about any significant changes to this information.

Scheduling of Work and Job Planning

5. Where a conflict of interest arises or is liable to arise, HPSS commitments must take precedence over private work. Subject to paragraphs 10 and 11below, the consultant is responsible for ensuring that private commitments do not conflict with Programmed Activities.

6. Regular private commitments must be noted in the Job Plan.

7. Circumstances may also arise in which a consultant needs to provide emergency treatment for private patients during time when he or she is scheduled to be undertaking Programmed Activities. The consultant will make alternative arrangements to provide cover if emergency work of this kind regularly impacts on the delivery of Programmed Activities.

8. The consultant should ensure that there are arrangements in place, such that there can be no significant risk of private commitments disrupting HPSS commitments, e.g. by causing HPSS activities to begin late or to be cancelled. In particular where a consultant is providing private services that are likely to result in the occurrence of emergency work, he or she should ensure that there is sufficient time before the scheduled start of Programmed Activities for such emergency work to be carried out.

9. Where the employing authority has proposed a change to the scheduling of a consultant's HPSS work, it will allow the consultant a reasonable period in line with Schedule 6, paragraph 2 to rearrange any private commitments. The employing organisation will take into account any binding commitments that the consultant may have entered into (e.g. leases). Should a consultant wish to reschedule private commitments to a time that would conflict with Programmed Activities, he or she should raise the matter with the clinical manager at the earliest opportunity.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Scheduling Private Commitments Whilst On-Call

10. The consultant will comply with the provisions in Schedule 8, paragraph 5 of these Terms and Conditions. In addition, where a consultant is asked to provide emergency cover for a colleague at short notice and the consultant has previously arranged private commitments at the same time, the consultant should only agree to provide such emergency cover if those private commitments would not prevent him Or her returning to the relevant HPSS site at short notice to attend an emergency. If the consultant is unable to provide cover at short notice it will be the employing organisation's responsibility to make alternative arrangements and the consultant will suffer no detriment in terms of pay progression as a result.

Use of HPSS Facilities and Staff

11. Where a consultant wishes to provide Private Professional Services at an HPSS facility he or she must obtain the employing organisation's prior agreement, before using either HPSS facilities or staff.

12. The employing organisation has discretion to allow the use of its facilities and will make it clear which facilities a consultant is permitted to use for private purposes and to what extent.

13. Should a consultant, with the employing organisation's permission, undertake Private Professional Services in any of the employing organisation's facilities, the consultant should observe the relevant provisions in the 'Code of Conduct for Private Practice'.

14. Where a patient pays privately for a procedure that takes place in the employing organisation's facilities, such procedures should occur only where the patient has given a signed undertaking to pay any charges (or an undertaking has been given on the patient's behalf) in accordance with the employing organisation's procedures.

15. Private patients should normally be seen separately from scheduled HPSS patients. Only in unforeseen and clinically justified circumstances should a consultant cancel or delay an HPSS patient's treatment to make way for his or her private patient.

16. Where the employing organisation agrees that HPSS staff may assist a consultant in providing Private Professional Services, or provide private services on the consultant's behalf, it is the consultant's responsibility to ensure that these staff are aware that the patient has private status.

17. The consultant has an obligation to ensure, in accordance with the employing organisation's procedures, that any patient whom the consultant admits to the employing organisation's facilities is identified as private and that the responsible manager is aware of that patient's status.

18. The consultant will comply with the employing organisation's policies and procedures for private practice

Patient Enquiries about Private Treatment

19. Where, in the course of his or her duties, a consultant is approached by a patient and asked about the provision of Private Professional Services, the consultant may provide only such standard advice as has been agreed between the employing organisation and appropriate local consultant representatives for such circumstances.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

20. The consultant will not during the course of his or her Programmed Activities make arrangements to provide Private Professional Services, nor ask any other member of staff to make such arrangements on his or her behalf, unless the patient is to be treated as a private patient of the employing organisation.

21. In the course of his/her Programmed Activities, a consultant should not initiate discussions about providing Private Professional Services for HPSS patients, nor should the consultant ask other staff to initiate such discussions on his or her behalf.

22. Where an HPSS patient seeks information about the availability of, or waiting times for, HPSS services and/or Private Professional Services, the consultant is responsible for ensuring that any information he or she provides, or arranges for other staff to provide on his or her behalf, is accurate and up-to-date.

Promoting Improved Patient Access to HPSS Care

23. Subject to clinical considerations, the consultant is expected to contribute as fully as possible to reducing waiting times and improving access and choice for HPSS patients. This should include ensuring that, as far as is practicable, patients are given the opportunity to be treated by other HPSS colleagues or by other providers where this will reduce their waiting time and facilitate the transfer of such patients.

24. The consultant will make all reasonable efforts to support initiatives to increase HPSS capacity, including appointment of additional medical staff and changes to ways of working.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Query Request Form

Requires Immediate Response: Yes

Reason for Immediate Response: Required as an action following Internal Audit review of management of private patients

---

☐	**Data Definition**	☒	**Recording Issue**
☒	**Technical Guidance**	☐	**Other**

Name: Personal Information redacted by the USI **Date:** 8th August 2018

Organisation: BHSCT **Contact Number:** Personal Information redacted by the USI

Subject Heading: PAS OP Referral Source Code – Private to NHS

a) Issue: ***Please provide as much detail as possible in order for the query to be considered and resolved as quickly as possible. This query form will be published on SharePoint when resolved.***

Belfast Trust requests a Referral Source Code on PAS for outpatients who change status from Private to NHS. Currently there is no guidance for identifying such patients.

Patient who attends Trust as a private patient has category recorded as PPG. When treatment completed OP registration should be closed with Discharge Reason – Treatment Completed, however if during their treatment the patient decides to change status to NHS the OP registration should be closed with Discharge Reason – Transfer to NHS and a new OP registration opened:
PAS with referral source PTN (Private to NHS) (suggested code), mapped to Internal Value (2) and CMDS Value (11) on Referral Source Masterfile and category as NHS.

This will ensure that the original category of PPG is not overwritten to NHS and the information recorded as per the Draft Technical Guidance on Private and Overseas Patients is not lost.

Belfast Trust request that the above is adopted as regional PAS Technical Guidance.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

b) Response:

When a patient transfers from Private to NHS during their treatment period the OP registration should be closed using:

Discharge Reason code: TNHS – Transfer from Private to NHS

A new OP registration should be opened using:

Referral Source code: PTN – Private to NHS

Approved by: Acute Hospital Information Group

From:	Maria O'Kane, Medical Director
Date:	1st April 2022
Subject:	~~Administrative Processesc~~

Commented [WS1]: Acute Services Administrative Processes

For all Medical Staff working within Acute Services

Formatted: Font: Bold, Italic

Dear Colleagues,

I would be grateful if you could assist with the following administrative processes, which also impact on patient safety. These administrative processes are already in place but are not always followed which unfortunately can lead to a significant risk of delay and ultimately harm to patients. If the administrative processes are adhered to can also improve efficiency amongst administration and clerical staff and reduce risk to our patients.

Commented [WS2]: Within Acute Services? Are these seperaet to CYP etc

Management of Administrative Staff

Formatted: Underline

For purposes of ~~role~~ clarity ~~and~~ management responsibility regarding administrative staff the following applies. Anita Carroll is the Assistant Director with responsibility for Health Records, ED, Ward Clerks, Secretaries, Audio typists, Booking Centre and miscellaneous other administrative staff within Acute Services. Joanne mcevoy ~~Helen Forde~~, Head of Health Records and Katherine Robinson, head of secretarial and booking staff ~~Booking Centre Manager~~ are the Heads of Service for Administration in these areas and any issues regarding processes, recording issues ~~etc~~ should be brought to their attention. They and the relevant Service Administrators will then work alongside the Head of Service for the Divisions to resolve identified issues. ~~.~~

Commented [WS3]: Is this ED records?

Commented [WS4]: Can you remind me who took over from Helen

~~**Main Issues**~~

DRAFT

Outpatients

- Can I ask that all medical staff are reminded to highlight Red Flag, Cancer and high risk patients as appropriate on G2. This will ensure the clerical and ~~admin~~administration staff can prioritise these communications.

- Junior doctors should select the appropriate supervisor (Consultant of clinic) on G2 for their clinic dictation. Unfortunately, frequently this is not ~~done~~ completed and therefore dictation will not appear on the appropriate worklists for clerical staff. In some circumstances they may not be visible to the appropriate staff at all.

- Clinic outcome forms should be used to avoid unnecessary delays in the patient pathway, oc referrals, adding patients to waiting lists etc. The clinic outcome form records the outcome for each patient after their outpatient consultation, e.g. review in 6/52, review in 3/12, add to WL, Discharge etc. This is a vital communication tool for administration staff as they use the clinic outcome sheet to action any follow up immediately instead of waiting to listen to dictation, and so avoid delays in getting patients added to the Waiting list~~L~~/referred on to another consultant etc.

- If a patient needs reviewed within a specific timescale this needs highlighted by using the comment – *Must be seen (MBS 3 months)* or *Urgent 3 months* to ensure the patient is added to the urgent review waiting lists ~~etc~~. When the booking centre are selecting patients for review at the outpatient clinics they select from the MBS and Urgent ~~WLs~~ Waiting Lists first, and so ensure that these patients are seen within the required timeframe.

Commented [WS5]: what is this abbreviation

- Waiting list Proformas should be placed in a~~n~~ separate envelope and placed on top of the charts after each ~~the~~ clinic. When the secretary receives the envelope they will add the patients to the waiting list immediately. If the proforma is placed inside the patients chart this will cause a delay in adding the patient to the waiting list as they will not be dealt with until the clinic is typed.

- add the line re ensure a letter for every patient at clinic including DNA AND CNA

Inpatients

E Discharges

DRAFT

- The information recorded on the e-discharge letter is often unclear, eg *'review in due course'*, or *'refer to Dr Smyth'*. This is ambiguous– if a patient has to be reviewed then a timeframe must be stated.

- If a patient has to be referred on to another consultant/specialty/hospital full details of the consultant, the specialty and the hospital site must be recorded on the discharge letter.

- If a discharge letter is changed the ward clerk must be informed – eg it may be changed to record that a review appointment is required, but if the ward clerk hasn't been told that changes have been made they will not know to make the follow up appointment.

- Delay in completing a discharge letter or not completing a discharge letter~~one~~ at all ~~which~~ could lead to a patient's review/referral not being made.

- Doctors not authorising the discharge letter when they have finished it – this means the ward clerk cannot print the letter and therefore complete the follow up action and file the letter in the chart.

Misfiling

- Misfiling – some medical and nursing staff collect patient documentation and place this into a single chart – this may contain more than one person's information. If that patient is then transferred to another ward without the ward clerk having had a change to check the loose filing the chart will contain incorrect information.

- Following an SAI where the Coroner was ~~scathing~~ critical regarding~~about~~ a missing Kardex ~~the~~ ward clerks have commenced a new process whereby when they are filing up the patient information at discharge they record any missing information. This has highlighted a problem with the Kardex. From 26/6/19 to date five Kardexs have been missing – the ward clerk searches for these but it does highlight a problem with this particular piece of documentation.

Results

Formatted: Font: Italic

Commented [WS6]: is this still the case

DRAFT

- Results and X-rays on the ward must be signed – if they are not they must remain on the ward until such time as they are signed – this is leading to boxes of results being held at ward level. ~~This has been highlighted by the Medical Director.~~

- Results in paper form should be viewed/actioned and not held back until a chart is available or previous clinic letter is typed. You can action the results and advise for urgent typing straight away.

If you have any questions regarding these issues please contact Anita Carroll, Assistant Director Functional and Support Services. It is important that we all adhere to established administration processes to ensure that our patients remain safe, effective and efficient for the patients we serve.

Yours sincerely

Southern Health and Social Care Trust

Admin Review Processes

Introduction

This review of administrative processes followed a formal investigation into concerns about an individual Consultant under the Maintaining High Professional Standards Framework (MHPS). The main concerns highlighted concern over the Consultant's way of working, their administrative processes and their management of workloads.

The MHPS Case Manager made a number of recommendations one of which was a recommendation that in order for the Trust to understand fully the failings in the case, the Trust should *'carry out an independent review of the relevant administrative processes with clarity on roles and responsibilities at all levels within the Acute Directorate and appropriate escalation processes. It recommended that the review should look at the full system wide problems to understand and learn from the findings'.*

The formal MHPS investigation focused on four main areas of concern::

1. Non-triage of GP and other consultant referrals
2. Non-dictation on patients who had attended outpatient clinics
3. Hospital notes being stored off Trust premises, namely the Consultant's home
4. The Consultant was found to have scheduled his private patient's sooner and outside of clinical priority.

The table below:

- highlights and describes the issues of concern
- identifies the gaps that led to the concerns raised
- advises on the policies and processes now in place
- describes the ongoing risks/ flaws
- explains the escalation process for non-adherence

.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Issues Identified	Description of issue	Gaps that led to the problems	Policies or processes in place	Ongoing Risks/Flaws	Action Required to address ongoing risks/flaws	Escalation for non-adherence
1. Triage	<u>Pre 2014</u> Due to the delayed triage of referrals, the decision was taken to add to the OP waiting list the referral at the clinical priority that the GP had assigned. .	<u>2014-2017</u> For routine and Urgent GP referrals, non-adherence and non-enforcement of the IEAP, resulted in referrals not being returned within the appropriate timeframe, which then resulted in a lost opportunity to either upgrade or downgrade urgent/routine referrals Is there a need to add anything in here about the escalation process in place at the time?	<u>2017-current</u> The introduction of e-Triage on 27/3/17 enabled referrals to be monitored with respect to the triage process. The revised triage process (draft) detailed in the word document below is based on the current IEAP also addresses these issues of timely and appropriate triaging TRIAGE PROCESS DEC 20 (1).docx	<u>Current</u> Consultant-to-Consultant referrals (including outside of Trust) are not currently manged through e-Triage so there is still a risk that these could be delayed. Remaining specialties that still do not use e-Triage are being addressed Services not using eTriage.docx	Consultant to Consultant referrals to be added to e-Triage and the PDF SOP to be updated Consultant to Consultant Referrals. Remaining specialties to be added to e-Triage The triage process continues to be monitored weekly and needs to be complied to and enforced where necessary	<u>After 7 days</u> Non- triage of referrals is escalated by the Referral & Booking Centre to the Operational Support Lead for the Clinical Area <u>After 21 days</u> OSL to escalate to Lead Clinician or HOS and copy Assistant Director of Functional & Support Services <u>After 28 days</u> HOS escalates to AD & AMD to address. <u>After 35 days</u> AD & AMD escalates to Director of Acute

Issues Identified	Description of issue	Gaps that led to the problems	Policies or processes in place	Ongoing Risks/Flaws	Action Required to address ongoing risks/flaws	Escalation for non-adherence
2. Undictated Clinics	Some patients not having a letter dictated following an outpatient consultation resulting in no outcome recorded on PAS.	There is no system or process that provides assurance that each outpatient consultation generates an outpatient outcome letter	All Medical staff must understand that a letter is required for every outpatient attendance. Is there to be a policy or guidance developed to this effect? How and when will it be circulated / implemented?	A limitation with the G2 system is that it simply records speech and generates a letter. However G2 is unable to correlate the letter dictated against the outpatient attendance.	The Trust has been working on the G2/PAS interface. This major piece of work required integration with the help of BSO. It is now in 'live' mode and is being piloted by one consultant with positive feedback. This will provide the Trust with more assurance around the dictation of outpatient clinics. Update typing SOP to highlight that when a letters is not dictated for a patient that the secretary raises with the consultant and line manager in the first instance. Secretaries to stipulate on their backlog reports if they know of any undictated clinics/letters	When the secretary is typing the clinics she must escalate to the Consultant if there are any letters missing on Digital Dictation. <u>After 7 days</u> This is escalated to the Service Administrator. <u>After 14 days</u> Service Administrator to escalate to Lead Clinician and HOS <u>After 21 days</u> HOS escalates to AD & AMD to address. <u>After 28 days</u> AD & AMD escalates to Director of Acute

Issues Identified	Description of issue	Gaps that led to the problems	Policies or processes in place	Ongoing Risks/Flaws	Action Required to address ongoing risks/flaws	Escalation for non-adherence
					Monthly typing reports require to be produced and shared throughout all divisions At Junior doctor changeover inductions, the importance of timely and accurate dictating of all outpatients they have reviewed must be highlighted to them.	

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Issues Identified	Description of issue	Gaps that led to the problems	Policies or processes in place	Ongoing Risks/Flaws	Action Required to address ongoing risks/flaws	Escalation for non-adherence
3. Hospital Notes	Patient's hospital records electronically casenote tracked to a consultant and a location.	When patients hospital records were required same not in the tracked location	Current tracking system is a function on Patient Administrative System (PAS) Missing Charts are investigated and an IR1 form is completed if not found	There is currently no system which identifies that a chart is not where it is tracked to other than manual searches.	Any missing notes need to have an IR1 raised to highlight the problem. These should be reported to the respective areas. All staff managing patient notes should be reminded of the need for accuracy on PAS when tracking notes and patient records should be returned to file as soon as possible. All consultants need to be reminded regularly that all charts are tracked in their name and that it is their responsibility to ensure the notes are kept in the location that the notes are tracked to. Business Case for IFit which is an electronic tracking system using barcode technology (as used in other Trusts in NI) to be considered for funding until the NI	Service Administrators to do spot-checks of offices and highlight any issues of charts being stored beyond a reasonable time period IR1's to be monitored by AD FSS Division for repeat 'Borrower' missing notes and any concerns over a particular consultant should be escalated to Clinical Director/AMD and AD

Issues Identified	Description of issue	Gaps that led to the problems	Policies or processes in place	Ongoing Risks/Flaws	Action Required to address ongoing risks/flaws	Escalation for non-adherence
					Electronic Patient Record replaces paper records under the Encompass Project This had been previously submitted and approved but no funding identified.	
4. Private Patients	Patients who had been initially reviewed privately were added to the waiting list in a non-chronological manner	No monitoring of patients seen privately where they are entered onto the waiting list	This is governed by the Private Patient policy	It relies on the integrity of the consultant to comply with the private patient policy.	Revise the policy for paying patients in the Trust and share with all clinical teams. Guide-to-Paying-Patients-Southern-Trust- Data Quality Release notice for recording of private patient activity on PAS to be shared amongst clinical teams.	When secretaries are adding patients who were previously a private patient, to the waiting list they should ensure that Consultant has completed the appropriate forms and <u>After 7 days</u> If forms haven't been received by Private Patient Office this is escalated to the HOS/CD. <u>After 14 days</u>

					0023-18 PAS OP REFERRRAL PRIVATE	HOS escalates to AD & AMD to address. <u>After 21 days</u> AD & AMD escalates to Medical Director

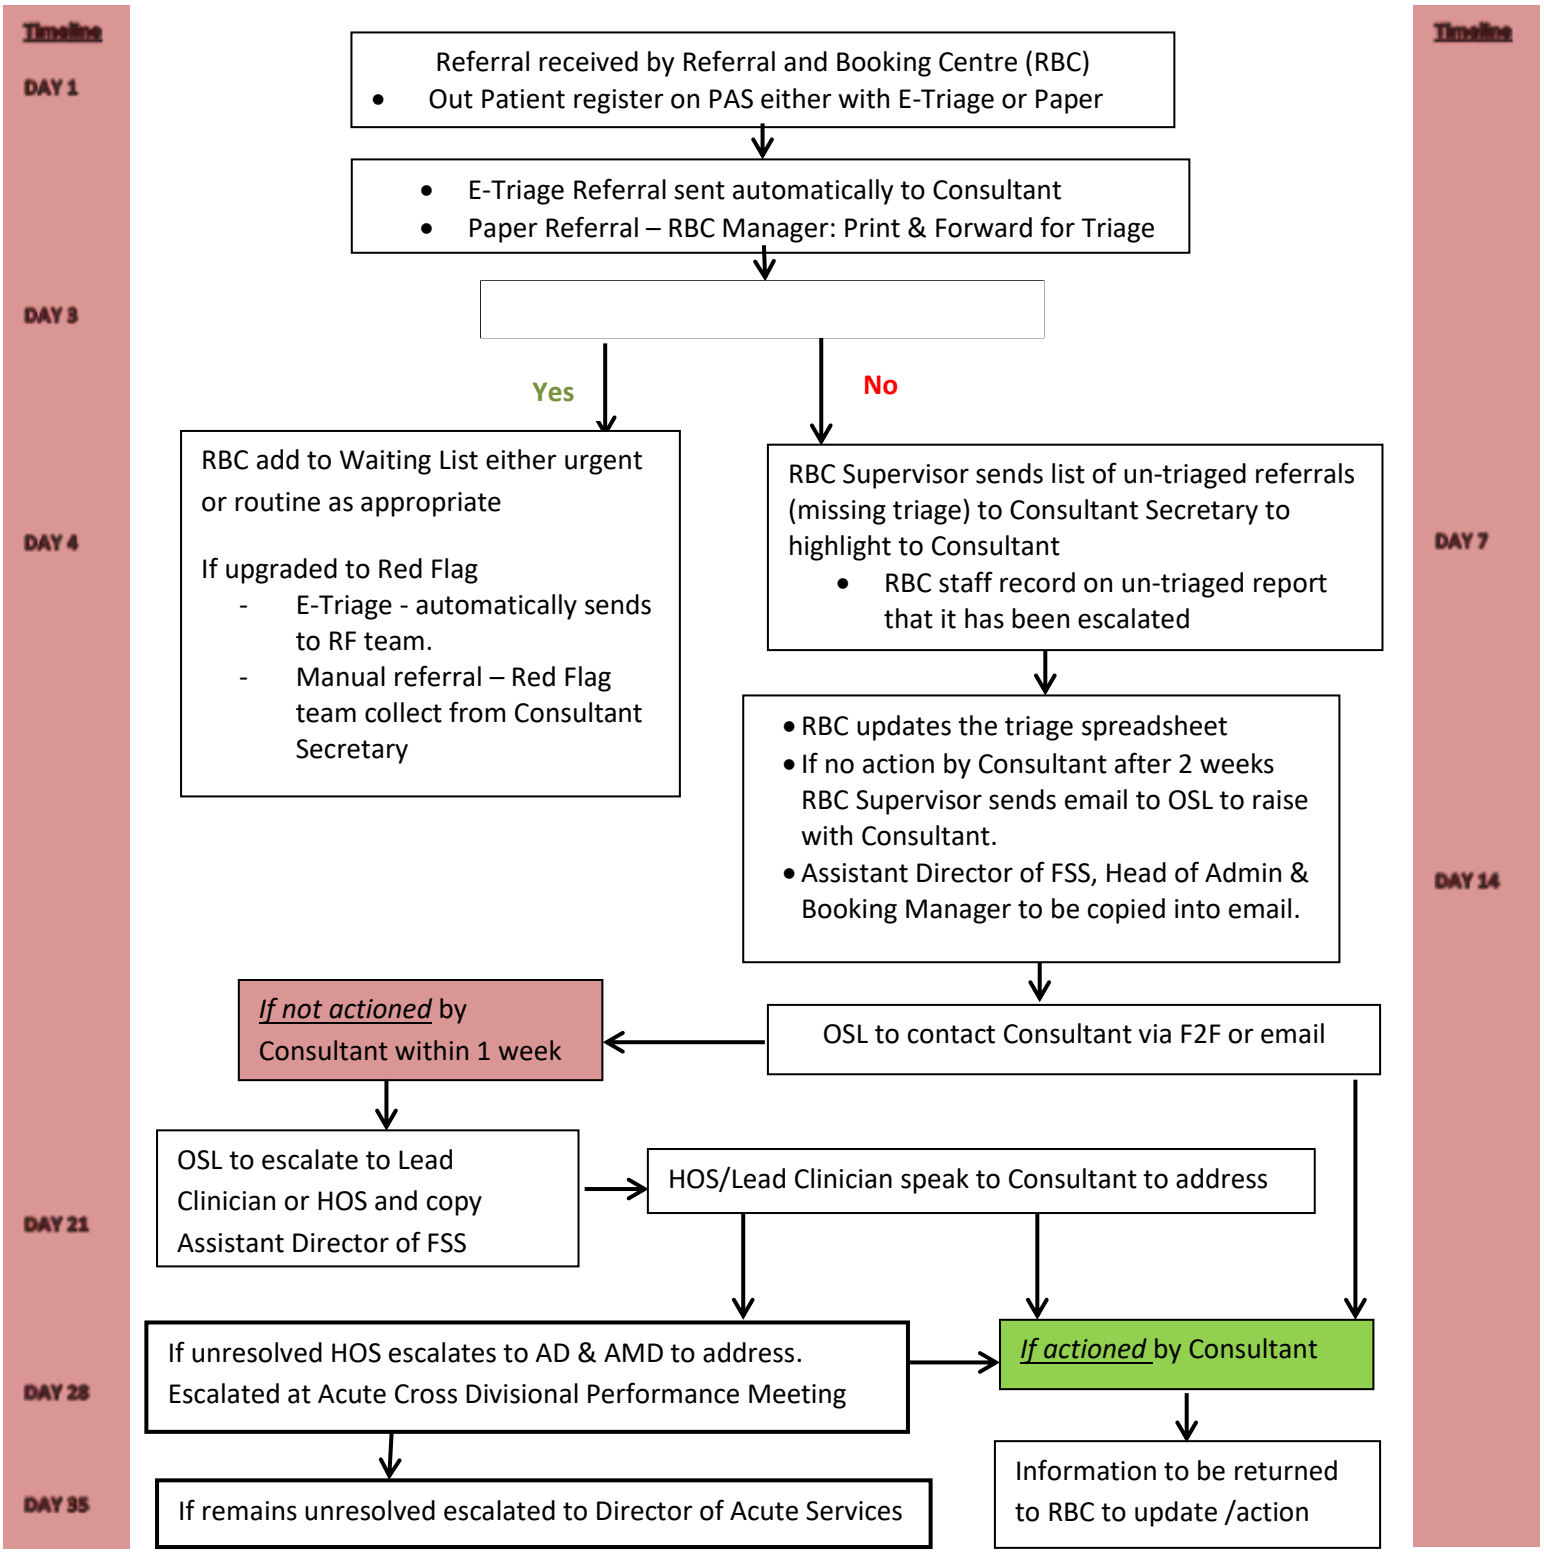
Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

TRIAGE PROCESS

- **Red Flag referrals should be returned from Triage within 24hrs**
- **Urgent referrals should be returned from Triage within 72hrs**
- **Routine referrals should be returned from Triage within week.**

PURPOSE OF TRIAGE

- Consultant triage is to confirm that the speciality is appropriate and the clinical urgency is appropriate.
- It directs the referral to an appropriate service within the speciality (e.g. to vascular surgeons etc.)
- It allows the Consultant to request any investigations which the patient will require prior to outpatient attendance
- The Consultant can return referrals with advice and no outpatient attendance where appropriate.



Note: This process will incur a minimum of 5 weeks in total if referral is un-triaged within the target times which means that if the referral is upgraded to Red Flag it is in excess of 14 day Red Flag turnaround.
It is the responsibility of the Consultant to ensure Triage is done within the appropriate timescales detailed above.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Services not using e-triage	
ORTHOPAEDIC GERIATRICS	Planned e-triage commencement Jan/Feb 2021
HAEMATOLOGY	Planned implementation postpone due to service pressures
NEPHROLOGY	Currently taking a break from e-triage, will relook at recommencing early 2021
GENERAL MEDICINE	Minimal referrals to this service but working with service looking towards implementation early 2021
BREAST SURGERY	Consultants not currently keen on e-triage – reengaged with service
GERIATRIC MEDICINE	Currently engaging with service

Standard Operating Procedure (S.O.P)
Referral and Booking Centre Procedures

Introduction

This SOP outlines the procedures followed by the Referral and Booking Centre to recognise a referral is in place from one consultant to another.

Implementation

This procedure is already effective and in operation in the Referral and Booking Centre.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Consultant to Consultant Referrals

The secretary for the consultant referring the patient should OP REG the patient on PAS with the OP REG date being the date the decision to refer was made (eg the clinic date)

This is done by using the Function:
DWA – ORE.

The name of the *referring consultant* should be entered into the comment field NOT the name of the consultant being referred to. Referrals should then be directed to the Referral and Booking Centre not to the secretary.

This will ensure that the patient now appears on a PTL and that the booking clerks will know who referred the patient and when.

When doing this the **Referral Source should be OC** (Other Consultant) **and NOT CON.**

Patients registered with a referral source as ‘Con’ do not appear on a PTL and can be missed.

Although all referrals are date stamped when they are received into the Referral and Booking centre – the original referral date will remain and will not be amended.

1. INTRODUCTION

1.1 The Trust came into existence on 1 April 2007 and is responsible for providing acute care across three sites namely:-

- Craigavon Area Hospital, Portadown
- Daisy Hill Hospital, Newry
- South Tyrone Hospital, Dungannon

1.2 The Trust welcomes additional income that can be generated from the following sources:-

- Private Patients
- Fee Paying Services
- Overseas Visitors

1.3 All income generated from these sources is deemed to make a valued contribution to the running costs of the Trust and will be reinvested to improve our facilities to benefit NHS and private patients alike.

1.4 All policies and procedures in relation to these areas will be carried out in accordance with Trust guidelines.

1.5 For further information please do not hesitate to contact the Paying Patient Office. [email: Personal Information redacted by the USI or http://www.southerndocs.hscni.net/paying-patients/

2. OBJECTIVES

2.1 The purpose of this guideline is to:

- Standardise the manner in which all paying patient practice is conducted in the organisation.
- Raise awareness of the duties and responsibilities within the health service of medical staff engaging in private practice and fee paying services within the Trust.
- Raise awareness of the duties and responsibilities of all Trust staff, clinical and non-clinical in relation to the treatment of paying patients and fee paying services within the Trust.
- Ensure fairness to both NHS patients and fee paying patients at all times.
- Clarify for relevant staff the arrangements pertaining to paying patients and to give guidance relating to
  - record keeping
  - charging

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

- procedures and
- responsibilities for paying patient attendances, admissions and fee paying services.

- Clarify charging arrangements when consultants undertake fee paying services within the Trust.

3. CATEGORIES OF WORK COVERED BY THIS GUIDE

3.1 Fee Paying Services

3.1.1 Any paid professional services, other than those falling within the definition of Private Professional Services, which a consultant carries out for a third party or for the employing organisation and which are not part of, nor reasonably incidental to, Contractual and Consequential Services. A third party for these purposes may be an organisation, corporation or individual, provided that they are acting in a health related professional capacity, or a provider or commissioner of public services. Examples of work that fall within this category can be found in Schedule 10 of the Terms and Conditions (Appendix 1).

3.2 Private Professional Services *(also referred to as 'private practice')*

3.2.1 The diagnosis or treatment of patients by private arrangement (including such diagnosis or treatment under Article 31 of the Health and Personal Social Services (Northern Ireland) Order 1972), excluding fee paying services as described in Schedule 10 of the terms and conditions.

3.2.2 Work in the general medical, dental or ophthalmic services under Part IV of the Health and Personal Social Services (Northern Ireland) Order 1972 (except in respect of patients for whom a hospital medical officer is allowed a limited 'list', e.g. members of the hospital staff).

3.3 Overseas Visitors

3.3.1 The National Health Service provides healthcare free of charge to people who are a permanent resident in the UK/NI. A person does not become an ordinarily resident simply by having British Nationality; holding a British Passport; being registered with a GP, or having an NHS number. People who do not permanently live in NI/UK are not automatically entitled to use the NHS free of charge.

3.3.2 **RESIDENCY** is therefore the main qualifying criterion.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

4. POLICY STATEMENT

4.1 Medical consultant staff have the right to undertake Private Practice and Fee paying services within the Terms and Conditions of the new Consultant Contract as agreed within their annual job plan review and with the approval of the Medical Director.

4.2 This Trust provides the same care to all patients, regardless of whether the cost of their treatment is paid for by HSC Organisations, Private Medical Insurance companies or by the patient.

4.3 Private Practice and Fee Paying services at the Trust will be carried out in accordance with:

- The Code of Conduct for private practice, the recommended standard of practice for NHS consultants as agreed between the BMA and the DHSSPS (Appendix 2).
- Schedule 9 of the Terms and Conditions of the Consultant contract which sets out the provisions governing the relationship between HPSS work and private practice (Appendix 8).
- The receipt of additional fees for Fee Paying services as defined in Schedule 10 of the Terms and Conditions of the Consultant Contract (Appendix 1).
- The principles set out in Schedule 11 of the above contract (Appendix 5).

4.4 All patients treated within the Trust, whether private or NHS should, where possible:

- be allocated a unique hospital identifier
- be recorded on the Patient Administration System and
- have a Southern Health & Social Care Trust chart.

4.5 The Trust shall determine the prices to be charged in respect of all income to which it is entitled as a result of private practice or other fee paying services which take place within the Trust.

5. CONSULTANT MEDICAL STAFF RESPONSIBILITIES

5.1 Private Practice

5.1.1 While Medical consultant staff have the right to undertake Private Practice within the Terms and Conditions of the new Consultant Contract as agreed within their annual job plan review, it is the responsibility of consultants, prior to the provision of any diagnostic tests or treatment to:

- ensure that their private patients (whether In, Day or Out) are identified and notified to the Paying Patients Officer.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

- ensure full compliance with the Code of Conduct for Private Practice (see Appendix 2) in relation to referral to NHS Waiting Lists.
- ensure that patients are aware of and understand the range of costs associated with private treatment including hospital costs and the range of professional fees which the patient is likely to incur, to include Surgeon/Physician, Anaesthetist, Radiologist, Pathologist, hospital charges. Leaflets can be obtained from the Paying Patients Officer or the Paying Patients section of Southern Docs website – click here.
- obtain prior to admission and at each outpatient attendance a signed, witnessed Undertaking to Pay form (Appendix 3) which must then be sent to the Paying Patient Officer for the relevant hospital at least three weeks before the admission date. This document must contain details of all diagnostic tests and treatments prescribed.
- Establish the method of payment at the consultation stage and obtain details of insured patients' private medical insurance policy information. The Trust requires this information to be forwarded to the Paying Patient Officer **prior to admission** so that patients' entitlement to insurance cover can be established. This should be recorded on the Undertaking to Pay form [Appendix 3].
- Ensure that all patients, where appropriate, are referred by the appropriate channels, i.e. GP/other consultant.
- Ensure that private patient services that involve the use of NHS staff or facilities are not undertaken except in emergencies, unless an undertaking to pay for treatment has been obtained from (or on behalf of) the patient, in accordance with the Trust's procedures.
- Ensure that information pertaining to their private patient work is included in their annual whole practice appraisal.

5.2 Fee Paying Services - *see Appendix 1 for examples*

5.2.1 The Consultant job plan review will cover the provision of fee paying services within the Trust. Consultants are required to declare their intention to undertake Fee Paying Services work by forwarding the Paying Patient Declaration form to the Medical Director's office.

5.2.2 A price list for fee paying services is available from the Paying Patients Office or the Paying Patients section of Southern Docs website – click here. It is the responsibility of the Consultant to ensure that the Trust is reimbursed for all costs incurred while facilitating fee paying services work undertaken. These costs could include:

- use of Trust accommodation;
- tests or other diagnostic procedures performed;
- radiological scans.

5.2.3 Consultants who engage in fee paying activities within the Trust are required to remit to the Trust on a quarterly basis the income due.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

1.2.4 Consultants should retain details of all patients seen for medical legal purposes. These should be submitted by the consultant on a quarterly basis along with the corresponding payment. See Section 11 for further details.

5.3 Additional Programmed Activities

5.3.1 Consultants should agree to accept an extra paid programmed activity in the Trust, if offered, before doing private work. The following points should be borne in mind:

- If Consultants are already working 11 Programmed Activities (PAs) (or equivalent) there is no requirement to undertake any more work.
- A Consultant could decline an offer of an extra PA and still work privately, but with risk to their pay progression for the year in question.
- Any additional PAs offered must be offered equitably between all Consultants in that specialty; if a colleague takes up those sessions there would be no detriment to pay progression for the other Consultants.

5.3.2 Consultant Medical Staff are governed by The Code of Conduct for Private Practice 2003 (at Appendix 2).

6. RESTRICTIONS ON PRIVATE PRACTICE FOR CONSULTANT MEDICAL STAFF

6.1 New Consultants

6.1.1 Newly appointed consultants (including those who have held consultant posts elsewhere in the NHS, or equivalent posts outside the NHS) may not undertake private practice within the Trust or use the Trusts facilities or equipment for private work, until the arrangements for this have been agreed in writing with the Trust Medical Director. A job plan must also have been agreed. An application to undertake private practice should be made in writing to the Medical Director through completion of the Paying Patient Declaration. New consultants permitted to undertake private work must make themselves known to the Paying Patients Officer.

6.2 Locum Consultants

6.2.1 Locum consultants may not engage in Private Practice within the first three months of appointment and then not until the detailed Job Plan has been agreed with the relevant Clinical Manager and approval has been granted by the Medical Director. This is subject to the agreement of the patient/insurer.

6.3 Non Consultant Grade Medical Staff

6.3.1 Non-consultant medical staff practitioners such as Associate Specialists may undertake Category 2 or private outpatient work, with the approval of the

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Medical Director following confirmation that the practitioner undertakes such work outside his/her programmed activities as per their agreed job plan.

6.3.2 Other than in the circumstances described above, staff are required to assist the consultant to whom they are responsible with the treatment of their private patients in the same way as their NHS patients. The charge paid by private patients to the hospital covers the whole cost of the hospital treatment including that of all associated staff.

7. CHANGE OF STATUS BETWEEN PRIVATE AND NHS

7.1 Treatment Episode

7.1.1 A patient who sees a consultant privately shall continue to have private status throughout the entire treatment episode.

7.2 Single Status

7.2.1 An outpatient cannot be both a Private and an NHS patient for the treatment of the one condition during a single visit to an NHS hospital.

7.3 Outpatient Transfer

7.3.1 However a private outpatient at an NHS hospital is legally entitled to change his/her status for any a subsequent visit and seek treatment under the NHS, subject to the terms of any undertaking he/she has made to pay charges.

7.4 Waiting List

7.4.1 A patient seen privately in consulting rooms who then becomes an NHS patient joins the waiting list at the same point as if his/her consultation had taken place as an NHS patient.

7.5 Inpatient Transfer

7.5.1 A private inpatient has a similar legal entitlement to change his/her status. This entitlement can only be exercised when a significant and unforeseen change in circumstances arises e.g. when they enter hospital for a minor operation and they are found to be suffering from a different more serious complaint. He/she remains liable to charges for the period during which he/she was a private patient.

7.6 During Procedure

7.6.1 A patient may request a change of status during a procedure where there has been an unpredictable or unforeseen complexity to the procedure. This can be tested by the range of consent required for the procedure.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

7.7 Clinical Priority

7.7.1 A change of status from Private to NHS must be accompanied by an assessment of the patient's clinical priority for treatment as an NHS patient.

7.8 Change of Status Form

7.8.1 Where a change of status is required a 'Change of Status' Form (Appendix 4) must be completed and sent to the Paying Patients Officer. This includes the reason for the change of status which will be subject to audit and must be signed by both the consultant and Paying Patients Officer. The Paying Patients Officer will ensure that the Medical Director approves the 'Change of Status' request.

7.8.2 It is important to note that until the Change of Status form has been approved by the Medical Director the patient's status will remain private and they may well be liable for charges.

8. TRUST STAFF RESPONSIBILITIES RELATING TO PRIVATE PATIENTS AND FEE PAYING SERVICES

8.1 A private patient is one who formally undertakes to pay charges for healthcare services regardless of whether they self-pay or are covered by insurance and all private patients must sign a form to that effect (Undertaking to Pay form at Appendix 3) prior to the provision of any diagnostic tests or treatments. Trust staff are required to have an awareness of this obligation.

8.2 The charge which private patients pay to the Trust covers the total cost of the hospital treatment excluding consultant fees. Trust staff are required to perform their duties in relation to all patients to the same standard. No payment should be made to or accepted by any non-consultant member of Trust staff for carrying out normal duties in relation to any patients of the Trust.

9. OPERATIONAL ARRANGEMENTS

9.1 Each hospital within the Trust has a named officer [Paying Patients Officer] who should be notified in advance of all private patient admissions and day cases. The Paying Patient Officer is responsible for ensuring that the Trust recovers all income due to the Trust arising from the treatment of private patients.

9.2 The Paying Patients Officer, having received the signed and witnessed Undertaking to Pay **Form at least three weeks** before the planned procedure will identify the costs associated with the private patient stay, will confirm entitlement to insurance cover where relevant and will raise invoices on a timely basis. [See Flow Chart 1]

9.3 The Medical Director will advise the Paying Patients Officer when a consultant has been granted approval to undertaken private practice. The Paying Patients Officer will advise the consultant of the procedures involved in undertaking private practice in the Trust.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

9.4 Clinical governance is defined as a framework through which NHS organisations are accountable for continuously improving the quality of their services and safeguarding high standards of care by creating an environment in which excellence in clinical care will flourish.

9.5 This framework applies to all patients seen within this Trust. It is therefore a fundamental requirement of Clinical Governance that all patients treated within the Trust must be examined or treated in an appropriate clinical setting.

9.6 Any fee or emolument etc. which may be received by an employee in the course of his or her clinical duties shall, unless the Trust otherwise directs, be surrendered to the Trust. For further information please see Southern Trust Gifts and Hospitality Standards of Conduct policy.

9.7 Record Keeping Systems and Private Patients

9.7.1 All patients regardless of their status should, where possible, be recorded on Hospital Systems and their status classified appropriately. These systems include for example:

- Patient Administration System (PAS)
- Northern Ireland Maternity System (NIMATS)
- Laboratory System
- Radiology System(e.g. Sectra, PACS, NIRADS, RIS etc)

9.8 Health Records of Private Patients

9.8.1 All hospital health records shall remain the property of the Trust and should only be taken outside the Trust to assist treatment elsewhere:

- when this is essential for the safe treatment of the patient
- when an electronic record of the destination of the notes is made using the case note tracking system
- when arrangements can be guaranteed that such notes will be kept securely
- provided that nothing is removed from the notes

9.8.2 Consultants who may have access to notes for private treatment of patients must agree to return the notes without delay. Either originals or copies of the patient's private notes should be held with their NHS notes. Patients' notes should not be removed from Trust premises. Requests for notes for medico-legal purposes should be requested by plaintiff's solicitor through the normal channels.

9.8.3 Since the Trust does not have a right of access to patient notes held in non NHS facilities, when patients are seen privately outside the Trust their first appointment within the Trust, unless with the same consultant, will be treated as a 'new appointment' rather than a 'review appointment'.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

9.8.4 In the event of a 'Serious Adverse Incident' or legal proceedings the Trust may require access to private patient medical records which should be held in accordance with GMC Good Record Keeping Guidance.

9.9 Booking Arrangements for Admissions and Appointments

9.9.1 A record of attendance should be maintained, where possible, for all patients seen in the Trust. All private in, day and out patients should as far as possible be pre-booked on to the hospital information systems. Directorates are responsible for ensuring that all relevant information is captured and 'booking in' procedures are followed. Each department should ensure that all such patients are recorded on PAS etc. within an agreed timescale which should not extend beyond month end.

9.10 Walk Ins

9.10.1 A private patient who appears at a clinic and has no record on PAS should be treated for record keeping purposes in exactly the same manner as an NHS patient (walk in) i.e. relevant details should be taken, registry contacted for a number and processed in the usual fashion. A record should be kept of this patient and the Paying Patient Officer informed.

9.11 Radiology

9.11.1 All patients seen in Radiology should be given a Southern Health and Social Care hospital number.

9.12 Private Patient Records

9.12.1 All records associated with the treatment of private patients should be maintained in the same way as for NHS patients. This includes all files, charts, and correspondence with General Practitioners.

9.12.2 Accurate record keeping assists in the collection of income from paying patients.

9.12.3 It should be noted that

- any work associated with private patients who are not treated within this Trust or consultants private diary work and correspondence associated with patients seen elsewhere should not be carried out within staff time which is paid for by the Trust.

9.13 Tests Investigations or Prescriptions for Private Patients

9.13.1 The consultant must ensure that the requests for all laboratory work, ie. radiology, prescriptions, dietetics, physiotherapy etc. are clearly marked as Private.

9.13.2 Consultants should not arrange services, tests investigations or prescriptions until the person has signed an Undertaking to Pay form which will cover the episode of care [Appendix 3]. This must be submitted three weeks before any planned procedure.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

9.14 Medical Reports

9.14.1 In certain circumstances Insurance Companies will request a medical report from the consultant. It is the consultant's responsibility to ensure that this report is completed in the timeframe required by the insurance company otherwise the Trust's invoice may remain unpaid in whole or in part until the report has been received and assessed.

10. FINANCIAL ARRANGEMENTS - PRIVATE PATIENTS

10.1 Charges to Patients

10.1.1 Where patients, who are private to a consultant, are admitted to the hospital, or are seen as outpatients, charges for investigations/diagnostics will be levied by the hospital. A full list of charges is available from the Paying Patient Office on request. Patients should be provided with an estimate of the total fee that they will incur **before** the start of their treatment.

10.1.2 Prices are reviewed regularly to ensure that all costs are covered. A calendar of pricing updates will be agreed.

10.2 Charges for Use of Trust Facilities for Outpatients

10.2.1 It is the responsibility of the Doctor to recover the cost from the patient and reimburse the Trust, on a quarterly basis, for any outpatients which have been seen in Trust facilities. [See Flow Chart 2]

10.2.2 A per patient cost for the use of Trust facilities for outpatients is available. This will be reviewed annually.

10.2.3 It is responsibility of the doctor to maintain accurate records of outpatient attendances. It is an audit requirement that the Trust verifies that all income associated with use of Trust facilities for outpatients has been identified and collected. Accordingly, Doctors are required to submit a quarterly return to the Paying Patient office with the names of the patients seen together with details of any treatment or tests undertaken. This information should accompany the payment for the relevant fees as outlined above.

10.2.4 A Undertaking to Pay form will only be required if investigations/diagnostics are required.

10.3 Basis of Pricing

10.3.1 Charges are based on an accommodation charge, cost of procedure, including any prosthesis, and on a cost per item basis for all diagnostic tests and treatments e.g. physiotherapy, laboratory and radiology tests, ECGs etc. They do not include consultants' professional fees. Some package prices may be agreed.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

10.4 Uninsured Patients – Payment Upfront

10.4.1 Full payment prior to admission is required from uninsured patients. Consultants should advise patients that this is the case. The patient should be advised to contact the Paying Patients Officer regarding estimated cost of treatment. [See Flow Chart 4]

10.5 Insured Patients

10.5.1 The Undertaking to Pay Form also requires details of the patient's insurance policy. The Paying Patients Officer will raise invoices direct to the insurance company where relevant, in accordance with the agreements with individual insurance companies.

10.5.2 Consultants, as the first port of contact and the person in control of the treatment provided, should advise the patient to obtain their insurance company's permission for the specified treatment to take place within the specified timescale. [See Flow Chart 4]

10.6 Billing and Payment

10.6.1 The Paying Patients Officer co-ordinates the collation of financial information relating to patients' treatment, ensures that uninsured patients pay deposits and that invoices are raised accordingly. The financial accounts department will ensure all invoices raised are paid and will advise the Private Patient Officer in the event of a bad debt.

10.7 Audit

10.7.1 The Trust's financial accounts are subject to annual audit and an annual report is issued to the Trust Board, which highlights any area of weakness in control. Adherence to the Paying Patient Policy will form part of the Trust's Audit Plan. Consultants are reminded that they are responsible for the identification and recording of paying patient information. Failure to follow the procedures will result in investigation by Audit and if necessary, disciplinary action under Trust and General Medical Council regulations.

11. FINANCIAL ARRANGEMENTS FOR FEE PAYING SERVICES

11.1 Consultants may see patients privately or for fee paying services within the Trust only with the explicit agreement of the Medical Director, in accordance with their Job Plan. Management will decide to what extent, if any, Trust facilities, staff and equipment may be used for private patient or fee paying services and will ensure that any such services do not interfere with the organisation's obligations to NHS patients. This applies whether private services are undertaken in the consultant's own time, in annual or unpaid leave. [See Flow Chart 3]

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

11.2 In line with the Code of Conduct standards, private patient services should take place at times that do not impact on normal services for NHS patients. Private patients should normally be seen separately from scheduled NHS patients.

11.3 Fee Paying Services Policy (Category 2)

11.3.1 Fee Paying Services (Category 2) work is distinct from private practice, however it is still non NHS work as outlined in the 'Terms and Conditions for Hospital Medical and Dental Staff'. Refer to schedules 10 and 11 (Appendices 1 & 5 respectively) for further details.

11.3.2 There are a number of occasions when a Category 2 report will be requested, and they will usually be commissioned by, employers, courts, solicitors, Department of Work and Pensions etc. the report may include radiological opinion, blood tests or other diagnostic procedures

11.3.3 It is the responsibility of the Doctor to ensure that the Trust is reimbursed for all costs incurred in undertaking Category 2 work, this not only includes the use of the room but also the cost of any tests undertaken.

11.3.4 In order to comply with the Trusts financial governance controls it is essential that all Fee Paying services are identified and the costs recovered. It is not the responsibility of the Trust to invoice third parties for Category 2 work.

11.3.5 It is the responsibility of the Doctor to recover the cost from the third party and reimburse the Trust, on a quarterly basis, for any Category 2 services they have undertaken, including the cost of any treatments/tests provided.

11.3.6 The Category 2 (room only) charge per session will be reviewed annually.

11.3.7 A per patient rate may be available subject to agreement with the Paying Patient Manager

11.3.8 It is responsibility of the doctor to maintain accurate records of Category 2 attendances. It is an audit requirement that the Trust verifies that all income associated with Category 2 has been identified and collected.

11.3.9 Doctors are required to submit a quarterly return to the Paying Patient office with the names of the patients seen together with details of any treatment or tests undertaken. This information should accompany the payment for the relevant fees of Category 2 work as outlined above and should be submitted no later than ten days after the quarter end.

11.3.10 In order to comply with Data Protection requirements, Doctors must therefore inform their Category 2 clients that this information is required by the Trust and obtain their consent. Consultants should make a note of this consent.

11.3.11 Compliance to this policy will be monitored by the Paying Patient Manager and the Medical Director's Office.

11.3.12 The Consultant is responsible to HM Revenue and Customs to declare for tax purposes all Category 2 income earned. The Trust has no obligation in this respect.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

11.3.13 Any Category 2 work undertaken for consultants by medical secretaries must be completed outside of their normal NHS hours. Consultants should be aware of their duty to inform their secretaries that receipt of such income is subject to taxation and must be declared to HM Revenue and Customs. It is recommended that Consultants keep accurate records of income and payment.

12. RENUNCIATION OF PRIVATE FEES

12.1 In some departments, consultants may choose to forego their private fees for private practice or for fee paying services in favour of a Charitable Fund managed by the Trust that could be drawn upon at a later stage for, by way of example, Continuous Professional Development / Study Leave.

12.2 For income tax purposes all income earned must be treated as taxable earnings. The only way in which this income can be treated as non taxable earnings of the consultant concerned is if the consultant signs a 'Voluntary Advance Renunciation of Earnings form' (Appendix 7) and declares that the earnings from a particular activity will belong to a named charitable fund and that the earnings will not be received by the consultant. In addition a consultant should never accept a cheque made out to him or her personally. To do so attracts taxation on that income and it cannot be subsequently renounced. Therefore all such income renounced in advance should be paid directly into the relevant fund. Income can only be renounced if it has not been paid to the individual and a Register of these will be maintained by the Charitable Funds Officer.

12.3 The Trust will be required to demonstrate that income renounced in favour of a Charitable Fund is not retained for the use of the individual who renounces it. Thus, in the event of any such consultant subsequently drawing on that fund, any such expenditure approval must be countersigned by another signatory on the fund.

13. OVERSEAS VISITORS - NON UK PATIENTS

(Republic of Ireland, EEA, Foreign Nationals)

PLEASE NOTE THIS IS ONLY A BRIEF GUIDE FOR FURTHER INFORMATION PLEASE CONTACT THE PAYING PATIENT OFFICE

13.1 The NHS provides healthcare free of charge to people who are 'ordinarily resident' in the UK. People who do not permanently live in the UK lawfully are not automatically entitled to use the NHS free of charge.

13.2 **RESIDENCY** is the therefore the main qualifying criterion, applicable regardless of nationality, being registered with a GP or having been issued a HC/NHS number, or whether the person holds a British Passport, or lived and paid taxes or national insurance contributions in the UK in the past.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

13.3 Any patient attending the Trust who cannot establish that they are an ordinary resident and have lawfully lived in the UK permanently for the last 12 months preceding treatment are not entitled to free non ED hospital treatment whether they are registered with a GP or not. A GP referral letter cannot be accepted solely as proof of a patient's permanent residency and therefore entitlement to treatment.

13.4 For all new patients attending the Trust, residency must be established. All patients will be asked to complete a declaration to confirm residency, (regardless of race/ethnic origin). If not the Trust could be accused of discrimination.

13.5 Where there is an element of doubt as to whether the patient is an 'ordinary resident' eg no GP/ H&C number or non UK contact details, the Paying Patients Officer must be alerted immediately.

13.6 Emergency Department

13.6.1 Treatment given in an Emergency Department, Walk in Clinic or Minor Inuries Unit is free of charge if it is deemed to be immediate and necessary.

13.6.2 The Trust should always provide immediate and necessary treatment whether or not the patient has been informed of or agreed to pay charges .There is no exemption from charges for 'emergency' treatment other than that given in the accident and emergency department. Once an overseas patient is transferred out of Emergency Department their treatment becomes chargeable.

13.6.3 All patients admitted from Emergency Department must be asked to complete declaration of residency status.

13.6.4 This question is essential in trying to establish whether the patient is an overseas patient or not and hence liable to pay for any subsequent care provided.

13.6.5 If the patient is not an ordinary resident or there is an element of doubt eg no GP/ no H&C Number, the patient should be referred to Paying Patients Office to determine their eligibility.

13.6.6 If the person has indicated that they are a visitor to Northern Ireland, the overseas address must be entered as the permanent address on the correct Patient Administrative System and the Paying Patients Office should be notified immediately.

13.7 Outpatient Appointments

13.7.1 In all cases where the patient has not lived in Northern Ireland for 12 months or relevant patient data is missing such as H&C number, GP Details etc the patient must be referred to the Paying Patients Office to establish the patient's entitlement to free NHS treatment. This must be established before an appointment is given.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

13.8 Review Appointments

13.8.1 Where possible follow up treatment should be carried out at the patient's local hospital, however if they are reviewed at the Trust they must be informed that they will be liable for charges.

13.8.2 If a consultant considers it appropriate to review a patient then they must sign a statement to this effect waiving the charges that would have been due to the Trust.

13.9 Elective Admission

13.9.1 A patient should not be placed onto a waiting list until their entitlement to free NHS Treatment has been established. Where the Patient is chargeable, the Trust should not initiate a treatment process until a deposit equivalent to the estimated full cost of treatment has been obtained.

13.10 Referral from other NHS Trusts

13.10.1 When a Consultant accepts a referral from another Trust the patients' status should, where possible, be established prior to admission. However, absence of this information should not delay urgent treatment.

13.10.2 The Trust will operate a policy of 'Stabilise and Transfer'.

14. AMENITY BED PATIENTS

14.1 Within the Trust's Maternity Service, a number of beds are assigned Amenity Beds. It is permissible for NHS patients who require surgical delivery and an overnight stay to pay for any bed assigned as an Amenity Bed. This payment has no effect on the NHS status of the patient. All patients identified as amenity will be recorded on PAS as APG and an Undertaking to Pay for an Amenity Bed form (Appendix 6) should be completed ideally before obtaining the amenity facilities.

15. GLOSSARY

Undertaking to Pay Form

Private Patients may fund their treatment, or they may have private medical insurance. In all cases Private Patients must sign an 'Undertaking to Pay' form (Appendix 3). This is a legally binding document which, when signed prior to treatment, confirms the patient as personally liable for costs incurred while at hospital and confirms the Patient's Private status. ALL private patients, whether insured or not are obliged to complete and sign an 'Undertaking to Pay' form, prior to commencement of treatment. Consultants therefore, as the first point of contact should ensure that the Paying Patients Officer is advised to ensure completion of the 'Undertaking to Pay' form.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Fee Paying Services
Any paid professional services, other than those falling within the definition of Private Professional Services, which a consultant carries out for a third party or for the employing organisation and which are not part of, nor reasonably incidental to, Contractual and Consequential Services. A third party for these purposes may be an organisation, corporation or individual, provided that they are acting in a health related professional capacity, or a provider or commissioner of public services. Examples of work that fall within this category can be found in Schedule 10 of the Terms and Conditions (Appendix 1).

Private Professional Services *(Also referred to as 'private practice')*

- the diagnosis or treatment of patients by private arrangement (including such diagnosis or treatment under Article 31 of the Health and Personal Social Services (Northern Ireland) Order 1972), excluding fee paying services as described in Schedule 10 of the terms and conditions (Appendix 1).

- work in the general medical, dental or ophthalmic services under Part IV of the Health and Personal Social Services (Northern Ireland) Order 1972 (except in respect of patients for whom a hospital medical officer is allowed a limited 'list', e.g. members of the hospital staff).

Non UK patients
A person who does not meet the 'ordinarily resident' test.

Job Plan
A work programme which shows the time and place of the consultant's weekly fixed commitments.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

16. APPENDIX 1: SPECIFIC EXAMPLES OF FEE PAYING SERVICES - SCHEDULE 10

1. Fee Paying Services are services that are not part of Contractual or Consequential Services and not reasonably incidental to them. Fee Paying Services include:

   a. work on a person referred by a Medical Adviser of the Department of Social Development, or by an Adjudicating Medical Authority or a Medical Appeal Tribunal, in connection with any benefits administered by an Agency of the Department of Social Development;

   b. work for the Criminal Injuries Compensation Board, when a special examination is required or an appreciable amount of work is involved in making extracts from case notes;

   c. work required by a patient or interested third party to serve the interests of the person, his or her employer or other third party, in such nonclinical contexts as insurance, pension arrangements, foreign travel, emigration, or sport and recreation. (This includes the issue of certificates confirming that inoculations necessary for foreign travel have been carried out, but excludes the inoculations themselves. It also excludes examinations in respect of the diagnosis and treatment of injuries or accidents);

   d. work required for life insurance purposes;

   e. work on prospective emigrants including X-ray examinations and blood tests;

   f. work on persons in connection with legal actions other than reports which are incidental to the consultant's Contractual and Consequential Duties, or where the consultant is giving evidence on the consultant's own behalf or on the employing organisation's behalf in connection with a case in which the consultant is professionally concerned;

   g. work for coroners, as well as attendance at coroners' courts as medical witnesses;

   h. work requested by the courts on the medical condition of an offender or defendant and attendance at court hearings as medical witnesses, otherwise than in the circumstances referred to above;

   i. work on a person referred by a medical examiner of HM Armed Forces Recruiting Organisation;

   j. work in connection with the routine screening of workers to protect them or the public from specific health risks, whether such screening is a statutory obligation laid on the employing organisation by specific regulation or a voluntary undertaking by the employing organisation in pursuance of its general liability to protect the health of its workforce;

   k. occupational health services provided under contract to other HPSS, independent or public sector employers;

   l. work on a person referred by a medical referee appointed under the Workmen's Compensation (Supplementation) Act (Northern Ireland) 1966; work on prospective students of universities or other institutions of further education, provided that they are not covered by Contractual and Consequential Services. Such examinations may include chest radiographs;

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

m. Appropriate examinations and recommendations under Parts II and IV of the Mental Health (Northern Ireland) Order 1986 and fees payable to medical members of Mental Health Review Tribunals;

n. services performed by members of hospital medical staffs for government departments as members of medical boards;

o. work undertaken on behalf of the Employment Medical Advisory Service in connection with research/survey work, i.e. the medical examination of employees intended primarily to increase the understanding of the cause, other than to protect the health of people immediately at risk (except where such work falls within Contractual and Consequential Services);

p. completion of Form B (Certificate of Medical Attendant) and Form C (Confirmatory Medical Certificate) of the cremation certificates;

q. examinations and reports including visits to prison required by the Prison Service which do not fall within the consultant's Contractual and Consequential Services and which are not covered by separate contractual arrangements with the Prison Service;

r. examination of blind or partially-sighted persons for the completion of form A655, except where the information is required for social security purposes, or by an Agency of the Department of Social Development, or the Employment Service, or the patient's employer, unless a special examination is required, or the information is not readily available from knowledge of the case, or an appreciable amount of work is required to extract medically correct information from case notes;

s. work as a medical referee (or deputy) to a cremation authority and signing confirmatory cremation certificates;

t. medical examination in relation to staff health schemes of local authorities and fire and police authorities;

u. delivering lectures;

v. medical advice in a specialised field of communicable disease control;

w. attendance as a witness in court;

x. medical examinations and reports for commercial purposes, e.g. certificates of hygiene on goods to be exported or reports for insurance companies;

y. advice to organisations on matters on which the consultant is acknowledged to be an expert.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

17. APPENDIX 2 - A CODE OF CONDUCT FOR PRIVATE PRACTICE

November 2003

Recommended Standards of Practice for NHS Consultants

An agreement between the BMA's Northern Ireland Consultants and Specialists Committee and the Department of Health, Social Services and Public Safety for consultants in Northern Ireland.

A CODE OF CONDUCT FOR PRIVATE PRACTICE: RECOMMENDED STANDARDS FOR NHS CONSULTANTS, 2003

Contents

Page 40 Part I – Introduction

- Scope of Code
- Key Principles

Page 41 Part II - Standards of Best Practice

- Disclosure of Information about Private Practice

- Provision of Private Services alongside NHS Duties
- Information for NHS Patients about Private Treatment
- Referral of Private Patients to NHS Lists
- Promoting Improved Patient Access to NHS Care and increasing NHS Capacity

Page 6 Part III - Managing Private Patients in NHS Facilities

- Use of NHS Facilities
- Use of NHS Staff

Part I: Introduction

Scope of Code

1.1 This document sets out recommended standards of best practice for NHS consultants in England about their conduct in relation to private practice . The standards are designed to apply equally to honorary contract holders in respect of their work for the NHS. The Code covers all private work, whether undertaken in non-NHS or NHS facilities.

1.2 Adherence to the standards in the Code will form part of the eligibility criteria for clinical excellence awards.

1.3 This Code should be used at the annual job plan review as the basis for reviewing the relationship between NHS duties and any private practice.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Key Principles

1.4 The Code is based on the following key principles:

- NHS consultants and NHS employing organisations should work on a partnership basis to prevent any conflict of interest between private practice and NHS work. It is also important that NHS consultants and NHS organisations minimise the risk of any perceived conflicts of interest; although no consultant should suffer any penalty (under the code) simply
- because of a perception;
- The provision of services for private patients should not prejudice the interest of NHS patients or disrupt NHS services;
- With the exception of the need to provide emergency care, agreed NHS commitments should take precedence over private work; and
- NHS facilities, staff and services may only be used for private practice with the prior agreement of the NHS employer.

Part II: Standards of Best Practice

Disclosure of Information about Private Practice

1.2 Consultants should declare any private practice, which may give rise to any actual or perceived conflict of interest, or which is otherwise relevant to the practitioner's proper performance of his/her contractual duties. As part of the annual job planning process, consultants should disclose details of regular private practice commitments, including the timing, location and broad type of activity, to facilitate effective planning of NHS work and out of hours cover.

2.2 Under the appraisal guidelines agreed in 2001, NHS consultants should be appraised on all aspects of their medical practice, including private practice. In line with the requirements of revalidation, consultants should submit evidence of private practice to their appraiser.

Scheduling of Work and On-Call Duties

2.3 In circumstances where there is or could be a conflict of interest, programmed NHS commitments should take precedence over private work. Consultants should ensure that, except in emergencies, private commitments do not conflict with NHS activities included in their NHS job plan.

2.4 Consultants should ensure in particular that:

- private commitments, including on-call duties, are not scheduled during times at which they are scheduled to be working for the NHS (subject to paragraph 2.8 below);
- there are clear arrangements to prevent any significant risk of private commitments disrupting NHS commitments, e.g. by causing NHS activities to begin late or to be cancelled;

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

- private commitments are rearranged where there is regular disruption of this kind to NHS work; and private commitments do not prevent them from being able to attend a NHS emergency while they are on call for the NHS, including any emergency cover that they agree to provide for NHS colleagues. In particular, private commitments that prevent an immediate response should not be undertaken at these times.

2.5 Effective job planning should minimise the potential for conflicts of interests between different commitments. Regular private commitments should be noted in a consultant's job plan, to ensure that planning is as effective as possible.

2.6 There will be circumstances in which consultants may reasonably provide emergency treatment for private patients during time when they are scheduled to be working or are on call for the NHS. Consultants should make alternative arrangements to provide cover where emergency work of this kind regularly impacts on NHS commitments.

2.7 Where there is a proposed change to the scheduling of NHS work, the employer should allow a reasonable period for consultants to rearrange any private sessions, taking into account any binding commitments entered into (e.g. leases).

Provision of Private Services alongside NHS Duties

2.8 In some circumstances NHS employers may at their discretion allow some private practice to be undertaken alongside a consultant's scheduled NHS duties, provided that they are satisfied that there will be no disruption to NHS services. In these circumstances, the consultants should ensure that any private services are provided with the explicit knowledge and agreement of the employer and that there is no detriment to the quality or timeliness of services for NHS patients.

Information for NHS Patients about Private Treatment

2.9 In the course of their NHS duties and responsibilities consultants should not initiate discussions about providing private services for NHS patients, nor should they ask other NHS staff to initiate such discussions on their behalf.

2.10 Where a NHS patient seeks information about the availability of, or waiting times for, NHS and/or private services, consultants should ensure that any information provided by them, is accurate and up-to-date and conforms with any local guidelines.

2.11 Except where immediate care is justified on clinical grounds, consultants should not, in the course of their NHS duties and responsibilities, make arrangements to provide private services, nor should they ask any other NHS staff to make such arrangements on their behalf unless the patient is to be treated as a private patient of the NHS facility concerned.

Referral of Private Patients to NHS Lists

2.12 Patients who choose to be treated privately are entitled to NHS services on exactly the same basis of clinical need as any other patient.

2.13 Where a patient wishes to change from private to NHS status, consultants should help ensure that the following principles apply:

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

- a patient cannot be both a private and a NHS patient for the treatment of one condition during a single visit to a NHS organisation;
- any patient seen privately is entitled to subsequently change his or her status and seek treatment as a NHS patient;
- any patient changing their status after having been provided with private services should not be treated on a different basis to other NHS patients as a result of having previously held private status;
- patients referred for an NHS service following a private consultation or private treatment should join any NHS waiting list at the same point as if the consultation or treatment were an NHS service. Their priority on the waiting list should be determined by the same criteria applied to other NHS patients; and
- should a patient be admitted to an NHS hospital as a private inpatient, but subsequently decide to change to NHS status before having received treatment, there should be an assessment to determine the patient's priority for NHS care.

Promoting Improved Patient Access to NHS Care and Increasing NHS Capacity

2.14 Subject to clinical considerations, consultants should be expected to contribute as fully as possible to maintaining a high quality service to patients, including reducing waiting times and improving access and choice for NHS patients. This should include co-operating to make sure that patients are given the opportunity to be treated by other NHS colleagues or by other providers where this will maintain or improve their quality of care, such as by reducing their waiting time.

2.15 Consultants should make all reasonable efforts to support initiatives to increase NHS capacity, including appointment of additional medical staff.

Part III – Managing Private Patients in NHS Facilities

3.1 Consultants may only see patients privately within NHS facilities with the explicit agreement of the responsible NHS organisation. It is for NHS organisations to decide to what extent, if any, their facilities, staff and equipment may be used for private patient services and to ensure that any such services do not interfere with the organisation's obligations to NHS patients.

3.2 Consultants who practise privately within NHS facilities must comply with the responsible NHS organisation's policies and procedures for private practice. The NHS organisation should consult with all consultants or their representatives, when adopting or reviewing such policies.

Use of NHS Facilities

3.3 NHS consultants may not use NHS facilities for the provision of private services without the agreement of their NHS employer. This applies whether private services are carried out in their own time, in annual or unpaid leave, or – subject to the criteria in paragraph 2.8 - alongside NHS duties.

3.4 Where the employer has agreed that a consultant may use NHS facilities for the provision of private services:

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

- the employer will determine and make such charges for the use of its services, accommodation or facilities as it considers reasonable;

- any charge will be collected by the employer, either from the patient or a relevant third party; and

- a charge will take full account of any diagnostic procedures used, the cost of any laboratory staff that have been involved and the cost of any NHS equipment that might have been used.

3.5 Except in emergencies, consultants should not initiate private patient services that involve the use of NHS staff or facilities unless an undertaking to pay for those facilities has been obtained from (or on behalf of) the patient, in accordance with the NHS body's procedures.

3.6 In line with the standards in Part II, private patient services should take place at times that do not impact on normal services for NHS patients. Private patients should normally be seen separately from scheduled NHS patients. Only in unforeseen and clinically justified circumstances should an NHS patient's treatment be cancelled as a consequence of, or to enable, the treatment of a private patient.

Use of NHS Staff

3.7 NHS consultants may not use NHS staff for the provision of private services without the agreement of their NHS employer.

3.8 The consultant responsible for admitting a private patient to NHS facilities must ensure, in accordance with local procedures, that the responsible manager and any other staff assisting in providing services are aware of the patient's private status.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

20. APPENDIX 5 PRINCIPLES GOVERNING RECEIPT OF ADDITIONAL FEES – SCHEDULE 11

Principles Governing Receipt of Additional Fees - Schedule 11

1. In the case of the following services, the consultant will not be paid an additional fee, or - if paid a fee - the consultant must remit the fee to the employing organisation:

- any work in relation to the consultant's Contractual and Consequential Services;
- duties which are included in the consultant's Job Plan, including any additional Programmed Activities which have been agreed with the employing organisation;
- fee paying work for other organisations carried out during the consultant's Programmed Activities, unless the work involves minimal disruption and the employing organisation agrees that the work can be done in HPSS time without the employer collecting the fee;
- domiciliary consultations carried out during the consultant's Programmed Activities;
- lectures and teaching delivered during the course of the consultant's clinical duties;
- delivering lectures and teaching that are not part of the consultant's clinical duties, but are undertaken during the consultant's Programmed Activities.
- Consultants may wish to take annual leave [having given the required 6 week notice period] to undertake fee paying work [e.g. court attendance] in this instance the consultant would not be required to remit fees to the Trust.

This list is not exhaustive and as a general principle, work undertaken during Programmed Activities will not attract additional fees.

2. Services for which the consultant can retain any fee that is paid:

- Fee Paying Services carried out in the consultant's own time, or during annual or unpaid leave;
- Fee Paying Services carried out during the consultant's Programmed Activities that involve minimal disruption to HPSS work and which the employing organisation agrees can be done in HPSS time without the employer collecting the fee;
- Domiciliary consultations undertaken in the consultant's own time, though it is expected that such consultations will normally be scheduled as part of Programmed Activities1;
- Private Professional Services undertaken in the employing organisation's facilities and with the employing organisation's agreement during the consultant's own time or during annual or unpaid leave;
- Private Professional Services undertaken in other facilities during the consultant's own time, or during annual or unpaid leave;
- Lectures and teaching that are not part of the consultant's clinical duties and are undertaken in the consultant's own time or during annual or unpaid leave;

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

- Preparation of lectures or teaching undertaken during the consultant's own time irrespective of when the lecture or teaching is delivered.

This list is not exhaustive but as a general principle the consultant is entitled to the fees for work done in his or her own time, or during annual or unpaid leave.

And only for a visit to the patient's home at the request of a general practitioner and normally in his or her company to advise on the diagnosis or treatment of a patient who on medical grounds cannot attend hospital.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

23. APPENDIX 8 - PROVISIONS GOVERNING THE RELATIONSHIP BETWEEN HPSS WORK AND PRIVATE PRACTICE - SCHEDULE 9

1. This Schedule should be read in conjunction with the 'Code of Conduct for Private Practice', which sets out standards of best practice governing the relationship between HPSS work and private practice.

2. The consultant is responsible for ensuring that their provision of Private Professional Services for other organisations does not:

   - result in detriment to HPSS patients;
   - diminish the public resources that are available for the HPSS.

Disclosure of information about Private Commitments

3. The consultant will inform his or her clinical manager of any regular commitments in respect of Private Professional Services or Fee Paying Services. This information will include the planned location, timing and broad type of work involved.

4. The consultant will disclose this information at least annually as part of the Job Plan Review. The consultant will provide information in advance about any significant changes to this information.

Scheduling of Work and Job Planning

5. Where a conflict of interest arises or is liable to arise, HPSS commitments must take precedence over private work. Subject to paragraphs 10 and 11below, the consultant is responsible for ensuring that private commitments do not conflict with Programmed Activities.

6. Regular private commitments must be noted in the Job Plan.

7. Circumstances may also arise in which a consultant needs to provide emergency treatment for private patients during time when he or she is scheduled to be undertaking Programmed Activities. The consultant will make alternative arrangements to provide cover if emergency work of this kind regularly impacts on the delivery of Programmed Activities.

8. The consultant should ensure that there are arrangements in place, such that there can be no significant risk of private commitments disrupting HPSS commitments, e.g. by causing HPSS activities to begin late or to be cancelled. In particular where a consultant is providing private services that are likely to result in the occurrence of emergency work, he or she should ensure that there is sufficient time before the scheduled start of Programmed Activities for such emergency work to be carried out.

9. Where the employing authority has proposed a change to the scheduling of a consultant's HPSS work, it will allow the consultant a reasonable period in line with Schedule 6, paragraph 2 to rearrange any private commitments. The employing organisation will take into account any binding commitments that the consultant may have entered into (e.g. leases). Should a consultant wish to reschedule private commitments to a time that would conflict with Programmed Activities, he or she should raise the matter with the clinical manager at the earliest opportunity.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

Scheduling Private Commitments Whilst On-Call

10. The consultant will comply with the provisions in Schedule 8, paragraph 5 of these Terms and Conditions. In addition, where a consultant is asked to provide emergency cover for a colleague at short notice and the consultant has previously arranged private commitments at the same time, the consultant should only agree to provide such emergency cover if those private commitments would not prevent him Or her returning to the relevant HPSS site at short notice to attend an emergency. If the consultant is unable to provide cover at short notice it will be the employing organisation's responsibility to make alternative arrangements and the consultant will suffer no detriment in terms of pay progression as a result.

Use of HPSS Facilities and Staff

11. Where a consultant wishes to provide Private Professional Services at an HPSS facility he or she must obtain the employing organisation's prior agreement, before using either HPSS facilities or staff.

12. The employing organisation has discretion to allow the use of its facilities and will make it clear which facilities a consultant is permitted to use for private purposes and to what extent.

13. Should a consultant, with the employing organisation's permission, undertake Private Professional Services in any of the employing organisation's facilities, the consultant should observe the relevant provisions in the 'Code of Conduct for Private Practice'.

14. Where a patient pays privately for a procedure that takes place in the employing organisation's facilities, such procedures should occur only where the patient has given a signed undertaking to pay any charges (or an undertaking has been given on the patient's behalf) in accordance with the employing organisation's procedures.

15. Private patients should normally be seen separately from scheduled HPSS patients. Only in unforeseen and clinically justified circumstances should a consultant cancel or delay an HPSS patient's treatment to make way for his or her private patient.

16. Where the employing organisation agrees that HPSS staff may assist a consultant in providing Private Professional Services, or provide private services on the consultant's behalf, it is the consultant's responsibility to ensure that these staff are aware that the patient has private status.

17. The consultant has an obligation to ensure, in accordance with the employing organisation's procedures, that any patient whom the consultant admits to the employing organisation's facilities is identified as private and that the responsible manager is aware of that patient's status.

18. The consultant will comply with the employing organisation's policies and procedures for private practice

Patient Enquiries about Private Treatment

19. Where, in the course of his or her duties, a consultant is approached by a patient and asked about the provision of Private Professional Services, the consultant may provide only such standard advice as has been agreed between the employing organisation and appropriate local consultant representatives for such circumstances.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

20. The consultant will not during the course of his or her Programmed Activities make arrangements to provide Private Professional Services, nor ask any other member of staff to make such arrangements on his or her behalf, unless the patient is to be treated as a private patient of the employing organisation.

21. In the course of his/her Programmed Activities, a consultant should not initiate discussions about providing Private Professional Services for HPSS patients, nor should the consultant ask other staff to initiate such discussions on his or her behalf.

22. Where an HPSS patient seeks information about the availability of, or waiting times for, HPSS services and/or Private Professional Services, the consultant is responsible for ensuring that any information he or she provides, or arranges for other staff to provide on his or her behalf, is accurate and up-to-date.

Promoting Improved Patient Access to HPSS Care

23. Subject to clinical considerations, the consultant is expected to contribute as fully as possible to reducing waiting times and improving access and choice for HPSS patients. This should include ensuring that, as far as is practicable, patients are given the opportunity to be treated by other HPSS colleagues or by other providers where this will reduce their waiting time and facilitate the transfer of such patients.

24. The consultant will make all reasonable efforts to support initiatives to increase HPSS capacity, including appointment of additional medical staff and changes to ways of working.

Query Request Form

Requires Immediate Response: Yes

Reason for Immediate Response: Required as an action following Internal Audit review of management of private patients

---

☐	**Data Definition**	☒	**Recording Issue**
☒	**Technical Guidance**	☐	**Other**

Name: Personal Information redacted by the USI

Date: 8th August 2018

Organisation: BHSCT

Contact Number: Personal Information redacted by the USI

Subject Heading: PAS OP Referral Source Code – Private to NHS

a) Issue: ***Please provide as much detail as possible in order for the query to be considered and resolved as quickly as possible. This query form will be published on SharePoint when resolved.***

Belfast Trust requests a Referral Source Code on PAS for outpatients who change status from Private to NHS. Currently there is no guidance for identifying such patients.

Patient who attends Trust as a private patient has category recorded as PPG. When treatment completed OP registration should be closed with Discharge Reason – Treatment Completed, however if during their treatment the patient decides to change status to NHS the OP registration should be closed with Discharge Reason – Transfer to NHS and a new OP registration opened:
PAS with referral source PTN (Private to NHS) (suggested code), mapped to Internal Value (2) and CMDS Value (11) on Referral Source Masterfile and category as NHS.

This will ensure that the original category of PPG is not overwritten to NHS and the information recorded as per the Draft Technical Guidance on Private and Overseas Patients is not lost.

Belfast Trust request that the above is adopted as regional PAS Technical Guidance.

Received from Anita Carroll on 26/06/2022. Annotated by the Urology Services Inquiry.

b) Response:

When a patient transfers from Private to NHS during their treatment period the OP registration should be closed using:

Discharge Reason code: TNHS – Transfer from Private to NHS

A new OP registration should be opened using:

Referral Source code: PTN – Private to NHS

Subject: Triage Process

Dear colleagues
Can I once again remind you of the triage escalation process attached.
There are instances of repeated escalations from the RBC staff but referrals remain untriaged in some specialties for a long period of time .
Can you ensure that your teams are escalating to lead clinicians or evidence of escalation to AMD or Director in line with escalation.
I am concerned that we are still not following the process.
Many thanks
Anita

Mrs Anita Carroll
Assistant Director of Acute Services -
Functional Support Services
Daisy Hill Hospital
5 Hospital Road
Newry
Co. Down

Tel: Personal Information redacted by the USI

Please consider the environment before printing this email

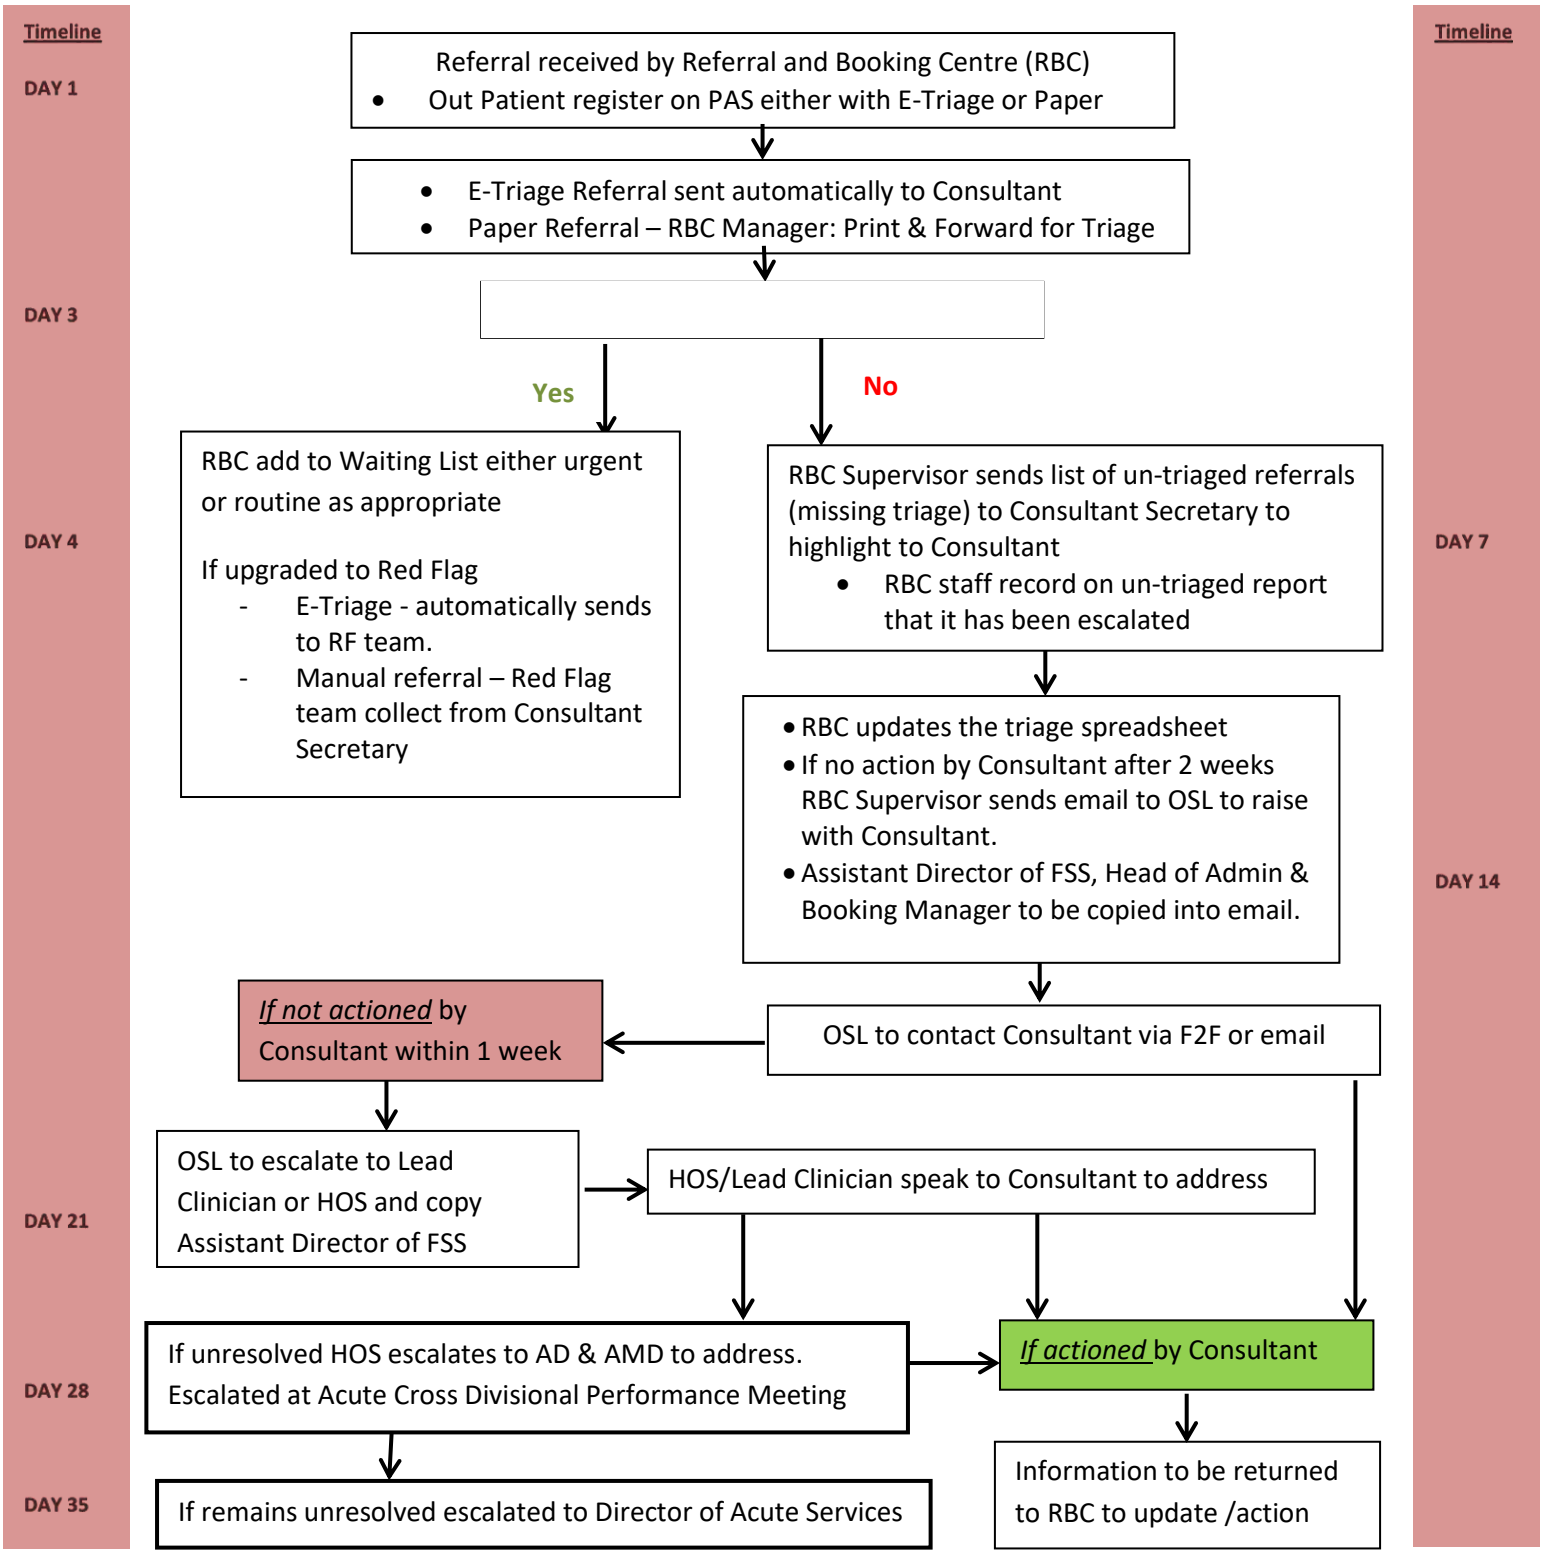
TRIAGE PROCESS

This process is developed by the Region under the IEAP (Integrated Elective Access Protocol) Referrals should be returned within 72 hrs but the Southern Trust have agreed 1 week to assist Clinicians as a more reasonable approach.

- **Red Flag referrals should be returned from Triage within 24hrs**
- **Urgent referrals should be returned from Triage within 72hrs**
- **Routine referrals should be returned from Triage within week.**

PURPOSE OF TRIAGE

- Consultant triage is to confirm that the speciality is appropriate and the clinical urgency is appropriate.
- It directs the referral to an appropriate service within the speciality (e.g. to vascular surgeons etc.)
- It allows the Consultant to request any investigations which the patient will require prior to outpatient attendance
- The Consultant can return referrals with advice and no outpatient attendance where appropriate.



Note: This process will incur a minimum of 5 weeks in total if referral is un-triaged within the target times which means that if the referral is upgraded to Red Flag it is in excess of 14 day Red Flag turnaround.
It is the responsibility of the Consultant to ensure Triage is done within the appropriate timescales detailed above.

Subject: Tracking Day

During April 2022 the Health Records Team communicated with Trust staff via the Southern-I newsletter to raise awareness of Records and Information month, and encouraged staff to return any charts in their locations that were no longer required.

Since the Casenote Tracking system does not contain a suite of reports that the Health Records Team can use effectively to manage tracking, the responsibility for tracking is very much decentralised to all borrowers. Tracking Day was a way to promote awareness of responsibilities and encourage staff to take some action.

The focal point was 29th April as "Tracking Day" and this was the target date for having the Casenote Tracking system as up to date as possible. As well as the return of charts no longer needed, there was a drive to ensure that charts held outside of Health Records Libraries were tracked accurately to their locations.

As part of Records and Information month, we at Health Records teams are keen to ensure that all staff will have sent back to Health Records libraries any charts they no longer require and any that remain in outside of Health Records Libraries are tracked appropriately

We also encouraged anyone with a tracking code to run a report of the charts tracked to them, and if they couldn't find them to contact the Health Records Department.

Subject: Draft delays action plan

Good afternoon please see attached draft action plan following this morning's meeting for discussion.
I wonder if we could everyone together on Friday the 20th January to continue the work, if it suits I will organise a venue.
Today's meeting focused around clear documentation and follow up appointments, will could focus on results etc next.
After the next meeting we should probably meet with HoS and OSLs to update them and see if our suggestions are workable within the services
I will also organise a meeting with Kate Cunningham in relation to radiology results as a new NICER process is coming up soon which may help

Regards,

Trudy

Subject: Urology Typing backlog

Hi All

Attached is the backlog for Urology. Apologies for the delay I had a few secretaries off this week.

All clinic typing is within the current month .

A few clinic letters outstanding for dictation from the doctors side as with the same with results awaiting dictation. Typing is ongoing for results and we are working with furthest back and will be caught up with shortly as we had some off on annual leave over this past few weeks
